

Pacific Regional Centre Business Plan – 2009/2010

Introduction:

The Pacific Regional Centre for Training and Technology Transfer for the joint implementation of the Basel and Waigani Conventions for the countries in the Pacific region established within the Secretariat of the Pacific Regional Environmental Programme (SPREP) is located at Apia, Samoa. Just as the Waigani Convention was developed within the framework of Article 11 of the Basel Convention and thus shares common and overlapping objectives with it, the establishment of the Pacific Regional Centre is not only seen as a mechanism to improve SPREP's work as the Secretariat of the Waigani Convention in assisting the Parties in the region but also as a great opportunity to foster better cooperation with the Secretariat of the Basel Convention in the implementation of both Conventions' objectives. The establishment of the Centre is also seen as a great opportunity to extend this cooperation to other secretariats of relevant multilateral environmental agreements, including Stockholm, Rotterdam, SAICM and IMO Conventions.

The governance of the Centre through the Conference of the Parties and the Steering Committee automatically ensures direct control of the Countries Party to both the Basel and Waigani Conventions over the related activities of the Centre.

The agreement establishing the Centre was officially signed between the SBC and SPREP on the 18 December 2003 in Geneva. It is operated under the joint authority of the Parties to the Basel and Waigani Conventions in the Pacific region.

The Pacific Regional Centre operates under the Directorship of the Director of SPREP and has a number of core staff that dedicate part of their time attending to the Centre's activities which assists SPREP to perform its role as the Secretariat of the Waigani Convention. The staffing of the regional Centre is governed by the SPREP staff regulations.

The funding of the basic activities of the Centre are primarily through mechanisms set up by the Waigani financial regulations and financial mechanisms under the Basel Convention. The voluntary funding envisaged under the Basel Convention and the Waigani Convention' Financial Regulations may affect the stability needed for a smooth operation of the Centre according to a longer-term workplan.

A mechanism needs to be developed to co-finance the activities of the Centres: Waigani Trust fund, Basel Trust Fund; Basel technical Trust Fund. This will need to be formalized in project documents signed by Secretariat of the Basel Convention (UNEP) and the Secretariat of the Waigani Convention (SPREP). SWC in collaboration SBC and on behalf of the Contracting Parties will mobilize funding from individual countries, donor agencies and organizations, private sector for the financing of the activities of the Center.

The Centre provides services for the implementation of the Basel and Waigani Conventions to the Parties to the Basel or Waigani Conventions consenting to be served. These includes the provision of services through capacity building activities and initiatives, specific projects and the transfer of appropriate technologies for the environmentally sound management of hazardous wastes, to achieve the fulfilment of the objectives of the Conventions. Any other non-Party States to the Basel or Waigani Conventions from the

Pacific region may at any time express their consent to be served by the Centre through a written communication to the Centre, SBC and SPREP.

Subject to the agreement of the Regional Centre's Steering Committee any non-Party State to the Basel and Waigani Conventions outside the Pacific region, non-governmental organisation, entity, private sector organisation, academic institution, or other organisation may participate in the activities of the Centre.

The Centre will implement activities in accordance with the relevant decisions of the Conferences of the Parties to the Basel and Waigani Conventions and the Business Plan that is developed by the Regional Centre Steering Committee.

The activities of the Centre will to be carried out under the general guidance and supervision of SBC and SPREP who will also coordinate the activities of the Centre with the relevant activities of other Basel Convention Regional Centres or of the Parties to the Basel and Waigani Conventions, as well as with international organisations, programmes and other global and regional conventions. The overall monitoring of the Center's activities against the Business Plan will be the function of the Regional Centre Steering Committee

A Steering Committee which has now been established will advise on the development and implementation of the activities of the Centre and to enhance national support to its work from countries served by the Centre. It is also charged with the responsibility of developing the Business Plan of the Centre and overseeing its implementation.

The Steering Committee is composed of five (5) members nominated by the countries to be served by the Centre through a process of consultation, for a period of four (4) years with the members being experts of recognized standing and with experience in the environmentally sound management of hazardous wastes and other wastes. The representative of SBC, SPREP and the Director of the Centre will participate in the meetings of the Committee *ex officio*.

The members of the Committee will elect by consensus the Chairperson and the Vice-Chairperson of the Committee from among its members for a period of four (4) years. The Chairperson, will then in consultation with SBC, SPREP and the Director of the Centre, convene the ordinary meetings of the Committee at least every two years. Extraordinary meetings may be convened by the Chairperson, when required, in consultation with SBC and SPREP. The current members of the Steering Committee are: Chair – Australia; New Zealand, PNG representing the Melanesian sub-region, FSM representing the Micronesian sub-region and Samoa representing the Polynesian sub-region.

Donors and other stakeholders, including any non-governmental organisations, entities, private sector organisations, academic institutions, or other organisations may be invited to the meetings of the Committee as observers.

Planned Activities

The Pacific Regional Centre Business Plan for 2009/2010 will concentrate on the following Strategic Plan Focus Areas:

Activity 1: Development and implementation of region-specific hazardous and other wastes minimization programmes in Pacific Island countries

Sub-activity 1: Assessment of e-wastes in the Pacific

Countries: Fiji, Marshall Islands, Nauru, Niue, Papua New Guinea, Solomon Islands, Tonga and Tuvalu

Time frame: 18 months – 2009/2010

Budget: US\$80,000

Retain activity. Exclude the 4 countries already conducting pilot projects.

Sub-activity 2: Follow up work for countries that are already conducting pilot projects

Sub-activity 3: Environmentally Sound Management of ULABs in the Pacific

Countries: Cook Islands, Fiji, FSM, Kiribati, Marshall Islands, Nauru, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga and Tuvalu

Time frame: 18 months – 2009/2010

Budget: US\$80,000

Sub-activity 4: Pilot project for a partnership on ESM of Used Oils in the North Pacific

Countries: FSM, Kiribati, Marshall Islands, Nauru and Palau

Time frame: 18 months – 2009/2010

Budget: US\$70,000

Sub-activity 5: Ongoing Assessment of asbestos in the Pacific

Countries: Cook Islands, Niue, Samoa, and Tonga, Solomon Islands, Kiribati

Time frame: 18 months – 2009/2010

Budget: US\$40,000

Sub-activity 6: Pilot project on the management of non-POPs wastes including laboratory chemicals and healthcare waste (expired pharmaceuticals)

Countries: Cook Islands, Fiji, FSM, Kiribati, Marshall Islands, Nauru, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga and Tuvalu

Time frame: 24 months – 2009/2010

Budget: US\$80,000

Activity 2: The operation of the PRC-SPREP as one of the main regional delivery mechanism for the concrete Implementation of the Strategic Plan

Sub-activity 7: Training on National Waste Definitions and Hazardous Waste Data Collection

Countries: Cook Islands, Fiji, FSM, Kiribati, Marshall Islands, Nauru, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga and Tuvalu
Time frame: 1 week during 2009/2010
Budget: US\$45,000

Sub-activity 8: Training of focal points, competent authorities and relevant staff and other stakeholders on various aspects of the implementation of the Basel and Waigani Conventions

Countries: Cook Islands, Fiji, FSM, Kiribati, Marshall Islands, Nauru, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga and Tuvalu
Time frame: 18 Months
Budget: US\$45,000

Sub-activity 9: Replication of the Training of legal officers to develop the concept of a national regulatory framework for the synergistic implementation of the 4 chemical conventions (Waigani, Basel, Stockholm, Rotterdam)

Countries: 5 PICs to be determined
Time frame: 18 Months
Budget: US\$60,000

Activity 3: Development and implementation of programme activities concerning the environmentally sound management of priority waste streams

Sub-activity 10: National hazardous waste management plans development

Countries: 4 PICs to be determined
Time frame: 18 Months
Budget: US\$30,000
Sub-activities 1, 2, 4, 6, 7 and 8 will also contribute to this section's output.

Activity 4: Implementation of the control of trans-boundary movements of hazardous wastes

Sub-activity 11: Establishment of association with Pacific Customs Organization (PCO) and develop an MOU between the Secretariat and OCO, training programme

Countries: Cook Islands, Fiji, FSM, Kiribati, Marshall Islands, Nauru, Niue, Papua New Guinea, Samoa, Solomon Islands, Tonga and Tuvalu
Time frame: 24 Months
Budget: US\$5,000

Sub-activity 12: Strengthening the synergies between Customs Officials, relevant law enforcement agencies and the Basel and Waigani Convention Competent Authorities (and other relevant chemical MEAs)

Countries: 4 PICs to be determined

Time frame: 18 Months

Budget: US\$30,000

Sub-activity 7 and 8 will also contribute to this section.

In addition to these priority activities, other relevant support functions such as general backstopping activities, dissemination and management of relevant information, legal and technical advice on hazardous waste management matters will be provided by SPREP staff as part of the general functions of the Secretariat of the Waigani Convention. The matrix in Annex I outlines a more detailed description of what each of the Activities will be aiming to do and who the proposed partners will be in their implementation.

A. Outputs

The main outputs envisaged to be accomplished at the end of 2009 are:

Activity 1: Development and implementation of region-specific hazardous and other wastes minimization programmes in Pacific Island countries

- Framework legislation on wastes and hazardous wastes, including waste definitions developed and in place in 4 countries
- Appropriate systems for the control of trans-boundary movements of hazardous wastes, including the control of illegal traffic developed and in place in 4 countries.
- Assessment of hazardous waste problems (e-wastes, asbestos, ULABs, non-POPs chemicals and healthcare waste, and Waste Oils) undertaken and completed in at least 4 Parties.
- Conclusion of ESM ULAB in the 5 pilot countries.

Activity 2: The operation of the PRC-SPREP as one of the main regional delivery mechanism for the concrete Implementation of the Strategic Plan

- Training packages and manuals prepared for various aspects, as specified in the work plan in Annex I of the implementation of the Basel and Waigani Conventions
- National plans for hazardous waste management developed for 4 countries
- 4 National train-the-trainers courses conducted on hazardous waste management and enforcement
- 2 Regional workshops on awareness raising, education and outreach programmes conducted
- 1 Regional workshop conducted to assist countries in the enhancement of regional and national capacities for the collection, management and dissemination of data and information
- 1 Regional workshop conducted to assist countries in the development of waste definitions and national inventories
- 4 Countries assisted in developing and implementing pilot projects on hazardous waste management, including application and use of cleaner technologies

It should be noted that in all these activities, relevant stakeholders including other government line agencies, non-governmental and community groups will also be included

Activity 3: Development and implementation of programme activities concerning the environmentally sound management of priority waste streams

- National inventories of hazardous wastes in 4 countries completed or updated
- Appropriate systems for the control of transboundary movements of hazardous wastes that include classifications, definitions, standards and procedures developed and in place in 4 countries
- 4 pilot plans for specific hazardous wastes developed and in place in 4 countries
- National programmes for identifying and cleaning up of obsolete stocks of hazardous wastes (e.g. PCBs, pesticides) developed and operational in 2 countries
- 4 Pilot projects on priority hazardous waste streams developed and implemented including application and use of cleaner technologies

Activity 4: Implementation of the control of trans-boundary movements of hazardous wastes

- Agreement established between PRC-SPREP and PCO to as part of strengthening the regional cooperation between the SWC and SBC and the Pacific Customs Organization (PCO)
- 1 Regional workshop conducted for customs and other relevant enforcement officers based on training guidelines and manuals developed by PRC-SPREP, SWC and SBC for the Pacific region
- Synergies between Customs Officials and the Basel and Waigani Convention Competent Authorities (as well as competent authorities of other relevant chemical MEAs) strengthened in 4 countries

B. Endorsements

In Article VIII paragraph 2 of the agreement establishing the Regional Centre of Training and Technology Transfer for the Waigani and Basel Conventions in the Pacific Region, it stipulates, “*the Steering Committee shall develop the Business Plan of the Centre and oversee its implementation.*”

At the Third Meeting of the Conference of the Parties to the Waigani Convention 2006, under Agenda item 8 (paras 34-41), the meeting agreed that the 5 members of the SC-PRC be appointed according to the following formula: Australia 1, New Zealand 1, and 1 each for the sub-regions of Melanesia, Micronesia and Polynesian.

The Steering Committee was thus formed and consists of a member each from Australia, New Zealand, Melanesia (PNG), Micronesia (FSM) and Polynesia (Samoa). This committee, under the Chairmanship of Australia, met in April 2008 and put together a Business Plan for the Centre which is now being presented for noting and endorsing at this Conference of Parties to the Waigani Convention.

Consistent with the text of the agreement the Steering Committee will also be overseeing

the implementation of this Business Plan and other relevant duties that the Steering Committee is put in place to administer.

C. Assumptions and Uncertainties

The assumptions and uncertainties outlined here are based on the experience the Secretariat has worked with when addressing hazardous waste management projects over the last 5-7 years in the region:

- Cooperation and formal agreements obtained from all participating governments with all agreeing to participate fully
- All governments in the region has fully dedicated and operational officers or agency to deal with hazardous waste management at the national level
- Trained officers remain in their jobs and progress the hazardous waste management work at the national level
- Inter-agency collaboration at the national level is operational
- Government lead agencies for all waste management matters also recognise hazardous waste as an important
- Regional experts and agencies cooperating with the implementation of the Business Plan
- An active Steering Committee which has now been established under the Chairmanship of Australia and includes membership from New Zealand, Melanesia (PNG), Micronesia (FSM) and Polynesia (Samoa)
- Mobilization and availability of adequate funding

D. Financial Plan for the period of 2009/2010

Please refer to Attachment II for an elaborate financial plan for the implementation of the Business Plan for the PRC-SPREP for the period of 2009/2010. It should be noted that the activities that have been identified in the work plan currently do not have any secured funding so the Secretariat will mobilise resources as part of the implementation of the work plan.

E. Resource Mobilisation

The principles that are followed and advocated for the implementation of this Business Plan for the period of 2009/2010 are:

- a multi-stakeholder approach, involving representatives from various government ministries as well as concerned parties outside of government, such as industry, research institutions, labour, and public interest groups;
- a country-driven process through which partner countries assess and identify their chemicals and hazardous waste management needs and link their related activities to national environmental and developmental objectives; and
- an inter-sectoral approach to chemicals and hazardous waste management in order to facilitate chemical risk reduction and pollution prevention across all stages of the life cycle.

- The PRC-SPREP will work closely with the following organizations and agencies to mobilize the resources needed for the implementation of the Business Plan for the Centre:
 - Secretariat of the Basel Convention
 - Secretariat of the Stockholm Convention
 - Secretariat of the Rotterdam Convention
 - Secretariat of the Strategic Approaches to International Chemical Management (SAICM)
 - South Pacific Applied Geoscience Commission (SOPAC)
 - The Pacific Island Forum Secretariat (PIFS)
 - United Nations Environmental Programme (UNEP)
 - United Nations Development Programme (UNDP)
 - Government of Japan
 - Government of Australia
 - Government of New Zealand
 - Regional training institutions such as the University of the South Pacific, University of Papua New Guinea and other Universities and colleges in the Pacific region dealing with chemical and hazardous waste management issues
 - The Pacific Islands non-governmental organizations
 - Relevant Pacific Island regional organizations such as the Pacific Customs Organizations, Pacific Ports Authorities, Police Associations etc
 - Other relevant regional and national NGO's that have an interest in hazardous waste management.

All the listed governments, organizations and agencies will be contacted and advised about the vision, objective and aim of the Business Plan of the Pacific Regional Centre and encouraged to be a partner in the implementation of the plan itself over the period of 2009/2010.

F. Monitoring and Evaluation

As mentioned earlier the monitoring and evaluation of the operations of the Centre and the implementation of the Business Plan will be a key role of the Steering Committee. The staff of the Centre will perform the function of reporting on the overall project activities.

The key monitoring role for Steering Committee will be in ensuring quality control by the Centre staff at all stages of the operations of the Centre as well as in the implementation of the projects.

SBC will also provide monitoring assistance and quality assurance through the provision of technical advice on the implementation of the projects, and by ensuring that conditions of the funding agencies are adhered to rigidly.

The proposed Business Plan will be building on the work the Centre has already undertaken over the preceding three years (2004-2008). The list of activities accomplished by the Centre over that period include:

- Successful holding of the first Scientific and Technical Advisory Committee (STAC) meeting for the Waigani Convention (2004)
- The development of the document titled: “Preliminary Elements for the development of an Integrated Waste Management Strategy for the Pacific Island States” (SWC-SBC, 2005)
- The successful completion of the trailing of the concept of a national regulatory framework for the synergistic implementation of the 3 chemical conventions (Basel, Stockholm, Rotterdam) in Tonga.
- Development of national hazardous waste inventories in 13 Pacific Island countries and the successful regional transboundary movement of hazardous waste materials to Australia for destruction purposes as part of the POPs in PICs project that is administered regionally by SPREP and funded by the Government of Australia
- Successful holding of the Pacific regional training workshop on reporting and inventories of hazardous wastes
- Development of a dedicated web page for legal matters on the SPREP homepage where all the Waigani Convention and hazardous waste documents are posted and updated.
- The formal establishment of the Steering Committee for the Centre.
- The Pacific regional awareness raising meeting on the SAICM process

Attachment I

Sub-activities	Measurable Outputs	SWC's and SBC's role in assisting the PRC-SPREP	Possible Partners
Activity 1: Development and implementation of hazardous and other wastes minimization programmes in developing country Parties in the Pacific region			
1. Providing legal and technical assistance to Parties to develop framework legislation on wastes and hazardous wastes, including waste definitions	4 Pacific Island countries	Facilitate national consultation process as and when requested;	IGOs/related MEAs
2. Providing assistance to countries to develop systems for the control of trans-boundary movements of hazardous wastes, including the control of illegal traffic	4 Pacific Island countries	<ul style="list-style-type: none"> • Facilitate access to experts and bilateral/multilateral funding; • Provide information on similar standards and procedures available in other countries 	<ul style="list-style-type: none"> • Donors • CROP agencies • IGOs • Related MEAs • Regional experts
3. Providing assistance to countries in the assessment of hazardous waste problems (e-wastes, asbestos, ULABs, non-POPs chemicals and healthcare waste, and Waste Oils). The assistance would also include work on waste definitions, national inventory, generation and stockpiles etc	4 Pacific Island countries	<ul style="list-style-type: none"> • Facilitate regional meetings Coordinate with other concerned IGOs, NGOs and regional bodies • Facilitate access to experts and bilateral/multilateral funding; 	<ul style="list-style-type: none"> • Donors • CROP agencies • IGOs • Related MEAs • Regional experts
Activity 2: The operation of the PRC-SPREP as one of the main regional delivery mechanism for the concrete Implementation of the Strategic Plan			
1. Provide technical assistance and contribute towards the development and preparation of training manuals, curricula, procedures for monitoring and enforcement and decision support tools undertaken by the SWC and SBC: (a) Revised manual on national legislation (b) Training package on implementation of the Basel Convention (c) Training package on national waste definitions and inventories of hazardous wastes (d) Training package on the preparation of national hazardous waste management plan (e) Guidance manual for customs, port, police and other enforcement officers (f) Training packages for environmentally sound management of specific priority waste streams (e.g. asbestos, waste oils, health-care wastes, used lead acid batteries, etc)	(a) 1 manual to be completed (b) 1 training package to be completed (c) 1 training package to be completed (d) 1 training package to be completed (d) 1 training package to be completed (e) Training packages for each waste stream to be completed	Providing expertise, coordination and support in document preparation Organize regional/ national meetings as required Seek input and build up partnership with relevant bodies (IGOs, NGOs, industry) Testing of the applicability of the manual together with the PRC-SPREP	<ul style="list-style-type: none"> • NGOs • IGOs • Industry

Sub-activities	Measurable Outputs	SWC's and SBC's role in assisting the PRC-SPREP	Possible Partners
2. Development of national plans and prioritized regional programmes	1 national action plan completed in 4 countries (building on the NIPs for SC), and at least 3 regional programmes completed	Providing expertise, coordination and support	<ul style="list-style-type: none"> • Related IGOs • National Govts
3. Training of trainers on hazardous waste management (including toxic chemicals) and enforcement	4 training courses completed	Coordination and support Participate as experts	<ul style="list-style-type: none"> • Related MEAs • CROP agencies • Regional training institutions • Regional experts
4. Awareness, education and outreach programmes and activities	2 regional workshops; trained journalists; publication/ media mix	Providing expertise, coordination and support materials	<ul style="list-style-type: none"> • National govts • Related IGOs • Regional training institutions • Industry • Mass media
5. Assisting countries in the enhancement of regional and national capacities for the collection, management and dissemination of data and information	1 regional workshop held	<ul style="list-style-type: none"> • Providing expertise, coordination and support • Providing funding from bilateral and multilateral sources • Training material preparation 	<ul style="list-style-type: none"> • National govts • Mass media
6. Assist in the development of waste definitions and national inventories on hazardous wastes	1 regional workshops held	Providing expertise, coordination and support Industry	<ul style="list-style-type: none"> • National govts • Regional training institutions
7. Assist the SWC and SBC in providing technical assistance to countries in developing and implementing pilot projects on hazardous waste management, including application and use of cleaner technologies	4 countries assisted	<ul style="list-style-type: none"> • Providing expertise, coordination, support and project monitoring; • Build up partnership with stakeholders 	<ul style="list-style-type: none"> • IGOs/related MEAs • Industry
Activity 3: Development and implementation of programme activities concerning the environmentally sound management of priority waste streams			
1. Providing assistance to countries in the assessment of priority hazardous waste streams (national waste definitions, national inventory, generation and stockpiles)	4 Parties completed inventories	<ul style="list-style-type: none"> • Facilitate regional meetings • Coordinate with other concerned 	<ul style="list-style-type: none"> • IGOs • NGOs • Regional bodies • Industry
2. Providing assistance to countries to develop systems for the control of transboundary movements of hazardous wastes that include classifications, definitions, standards and procedures	4 countries assisted	<ul style="list-style-type: none"> • Facilitate access to experts and bilateral/multilateral funding; • Provide information on similar standards and procedures available in other countries 	IGOs/related MEAs
3. Assistance to countries to develop hazardous waste management plans	4 pilot plans are developed	<ul style="list-style-type: none"> • Facilitate access to experts, funding and assist in development of the plans 	<ul style="list-style-type: none"> • IGOs • Related MEAs • Regional expert

Sub-activities	Measurable Outputs	SWC's and SBC's role in assisting the PRC-SPREP	Possible Partners
4. Assisting countries in the programme for identifying and cleaning up of obsolete stocks of hazardous wastes (e.g. PCBs, pesticides)	2 countries assisted	<ul style="list-style-type: none"> • Providing expertise, coordination and support • Build up partnership with stakeholders • Manual preparation 	<ul style="list-style-type: none"> • IGOs • NGOs • Industry
5. Technical assistance to countries in developing and implementing pilot projects on hazardous waste management (priority waste streams), including application and use of cleaner technologies	4 pilot projects conducted	<ul style="list-style-type: none"> • Providing expertise, coordination, support and project monitoring; • Build up partnership with stakeholders 	<ul style="list-style-type: none"> • National govts • Industry • NGOs
Activity 4: Implementation of the control of trans-boundary movements of hazardous wastes			
1. Strengthening of regional cooperation between the SWC and SBC and the Pacific Customs Organization (PCO)	Agreement between PRC-SPREP and PCO established	Coordination between PRC-SPREP, national governments and PCO	<ul style="list-style-type: none"> • National Govts • Pacific Customs Organization (PCO)
2. Preparation of manuals and guidelines (simple but comprehensive) for the Customs Officials and other relevant enforcement officers in-country.	1 regional training workshop conducted	<ul style="list-style-type: none"> • Facilitate access to experts and bilateral/multilateral funding; • Provide information on similar procedures available in other countries 	<ul style="list-style-type: none"> • National Governments • IGOs/related MEAs • PCO
3. Strengthening synergies between Customs Officials and the Basel and Waigani Convention Competent Authorities	4 countries assisted in strengthening the synergies	Coordinate with other concerned IGOs and Regional bodies	<ul style="list-style-type: none"> • Regional bodies • IGOs/related MEAs • National governments
