SUPPORT TO THE SAMOA RE AWARENESS PROGRAMME

Dear Sir/Madam

The Samoan Energy Unit of the Ministry of Finance has requested support from the Secretariat's Pacific Islands Greenhouse Gases Abatement through Renewable Energy Project (PIGGAREP) for financial assistance to conduct its 2011 ongoing RE Awareness Program

Following the 10th Project Steering Committee (PSC) meeting on the 23rd September 2010, I am pleased to advise that the Project Steering Committee of our regional renewable energy project (PIGGAREP) has endorsed the project proposal worth US$30,000 for the RE Awareness

This letter of confirmation now supersedes the letter of confirmation sent out on the 23rd December 2010, on the same subject matters.

It is very important the project is implemented through an open and cost effective manner and where principles of good governance and accountability are strictly adhered to.

I would therefore encourage the project proponent(s) to liaise very closely with the PIGGAREP Project Manager (Acting) on finalizing any terms of references (if there is any) for all consultancies that might be involved.

I look forward for the successful implementation of this project and the subsequent documentation of the project outcomes and lessons learnt.

Yours sincerely

Kosi Latu
Acting Director
