FOURTH MULTIPARTITE REVIEW

**[Apia, Samoa]
11-12 August 2005**

Agenda Item 4.
Reports from the 5th and 6th National Coordinator's Meetings

5th IWP National Coordinator's Meeting, 25-29 October, 2004, Nadi, Fiji

The mid-term evaluation of the Project completed in July 2003 recommended increased attention to monitoring and evaluation (M&E) particularly with respect to linking national activities to the overall Project Log frame. Efforts to address this recommendation include a focus on monitoring and evaluation at the Fourth National Coordinators' Meeting (NCM-4) in July 2004. At this meeting, draft monitoring plans for in-country pilot projects under the IWP were prepared. Following an assessment of costs and benefits, as recommended at last year's MPR, an extra-ordinary meeting of National Coordinators (their 5th Meeting) was held at Nadi, Fiji to:

- finalise of the monitoring plans that were developed during the 4th National Coordinators' Meeting (supported by related 2005-2006 work plans);
- consider a draft Replication Strategy for the IWP; and
- review work programme priorities for the Project through to December 2006.

These objectives for the Meeting were satisfactorily achieved and the results will be reported on throughout MPR4.

6th IWP National Coordinator's Meeting, 8-10 August, 2005, Apia, Samoa

To be prepared following the Meeting and presented to MPR4.
