

## Key monitoring and evaluation commitments in the 2011-2015 Strategic Plan

Secretariat	Member countries and territories
<b>Annual: 2011-2015</b>	
<i>Performance monitoring and evaluation report (PMER) presented to the SPREP Meeting</i> The PMER will detail success in implementing annual work plan activities and meeting SP targets, specifying key measurable M&E outcomes against SP indicators	<i>Annual monitoring reports on progress in achieving improved environmental outcomes</i> The modality for the content, structure and delivery of these reports has yet to be agreed by Members
<b>2011-2012</b>	
<i>Regional environmental indicators established</i> Baseline of key regional environmental indicators established that mirror those at national level as well as identifying those specific to the regional level, including headline indicators for climate change, biodiversity and waste and pollution.	<i>National environmental indicators established</i> These will need to be established through a consultative process with PICTs.
<b>2012</b>	
<i>Framework for regular regional SoE assessment and reporting together with data access and sharing arrangements established</i> Will require close collaboration with PICTs for agreement on indicators (above) and modalities for data access and sharing.	
<b>2013</b>	
<i>Mid-term Review</i> Members and Secretariat review progress in meeting SP goals and targets; assess validity of priorities and activities; review efficacy of monitoring methods; propose adjustments/additions to priorities, goals and targets.	
<b>2015</b>	
<i>1. End-term Review</i> Members and Secretariat assess the extent to which SP goals and targets have been met; identify shortcomings and gaps.	
<i>2. Regional State of Environment Report</i> The Secretariat will be responsible for producing the regional level SoE, which will provide the benchmark for subsequent regional SoE reports and the 2016-2021 Strategic Plan. It will also contribute to the assessment of the 2011-2015 SP.	<i>2. National State of Environment Reports</i> Also within the Environmental Monitoring and Governance strategic priority, is the target that at least 5 PICT Members will produce national SoE reports by 2015.
