

Summary of Current and Forthcoming Ocean Focused SPREP and Relevant Partner Programmes and Projects

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
Current Implementation						
Pacific Partnership on Ocean Acidification (OA)	Building resilience to (OA) through practical adaptation actions; OA research & monitoring; capacity building & awareness raising	<i>Donors:</i> New Zealand Ministry of Foreign Affairs; Principality of Monaco <i>Partners :</i> SPC, USP	2015–2020	NZ\$2m €260,000 Monaco	RO1.2: Minimise multiple pressures on vulnerable Pacific island ecosystems by implementing ecosystem-based approaches to climate change adaptation, including responses to OA and sea level rise.	RO1.2.1: EbA incorporated into national adaptation plans of at least 3 PICTs
Pacific Ecosystem-based Adaptation to Climate Change	Develop and implement EbA at provincial and local scales in Fiji, Solomon Islands and Vanuatu - includes coastal/ marine ecosystems	<i>Donor:</i> German BMU/IKI <i>Partners:</i> various	2015-2020	€5m	RO1.2: Minimise multiple pressures on vulnerable Pacific island ecosystems by implementing ecosystem-based approaches to climate change adaptation, including responses to OA and sea level rise.	RO1.2.1: EbA incorporated into national adaptation plans of at least 3 PICTs

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
<p>By-catch and Integrated Ecosystem Management Component (BIEM) of Pacific-European Union Marine Programme (PEUMP)</p>	<p>Conservation and sustainable management of by-catch impacted marine species; integrated coastal and island ecosystem management ; marine spatial planning</p>	<p><i>Donor:</i> EU EDF-11</p> <p><i>Partners:</i> IUCN, SPC, FFA, USP</p>	<p>2018-2022</p>	<p>€6.2m</p>	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.</p> <p>RO2.3: Prevent the extinction of threatened species and support measures to sustain their conservation status.</p>	<p>RO2.1.2: By-catch of threatened species in commercial fisheries successfully mitigated in one key PICT fishery.</p> <p>RO2.1.4: Examples of improved coastal and marine ecosystem analysis have been developed, implemented and made available to Members.</p> <p>RO2.3.2: The conservation status of marine turtles is regularly monitored and information shared with Members and partners</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
PacWaste Plus	Sustainable and safe waste management to generate improved economic, social, health and environmental benefits targeting 8 waste streams: asbestos, E-waste, healthcare medical waste (building on PacWaste), recycling, organic waste, disaster waste, bulky waste and related wastewater and marine plastics aspects.	Donor: EU EDF-11	2018-2022	€17m	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of pollutants to air, water, and soil.</p>	<p>RO3.1.1: 20% of legacy wastes are removed from PICTs and at least 3 contaminated sites remediated.</p> <p>RO3.1.3: Residual waste management practices improved in three dump sites and storage facilities.</p> <p>RO3.2.3: Improved and sustained WCP awareness, coordination and engagement through new and existing forums and platforms including educational toolkit for PICTs that includes private sector.</p> <p>RO3.2.4: SPREP has completed nine capacity training needs assessment in PICTs and assessment information incorporated in the</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
						Pacific Islands Database (PIDOC).
Blue Belt Marine Conservation [Completed]	Conservation of coral reefs and other marine ecosystems focusing on tourism and education in French territories.	EU BEST	2016-2018	€400,000	RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.	RO2.1.3: Information on the status of Pacific coral reefs is improved, easily accessed and used to guide more effective planning and management of coral reefs in 20% of PICTs. RO2.3.4: Regional guidelines for best practice for species ecotourism are developed and implemented by at least 2 PICTs.
Pacific Ocean Litter Project	Plastic pollution	Australian Government (DOEE and DFAT)	2019 - 2023	AU\$8m	RO1.2: Minimise multiple pressures on vulnerable Pacific island ecosystems by implementing ecosystem-based approaches to climate	RO3.1.2: Funding for marine litter and microplastics secured and high priority actions implemented.

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
					<p>change adaptation, including responses to OA and sea level rise.</p> <p>RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.</p>	<p>RO3.3.1: Resource recovery and recycling activities funded and implemented.</p>
<p>Disaster Waste Management (JPRISM, SPREP and UON)</p>	<p>Disaster Waste Management</p>	<p>Canada</p>	<p>2019</p>	<p>C\$49,000</p>	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-</p>	<p>Deliver a workshop on Disaster Waste Management in Vanuatu</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
					cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of pollutants to air, water, and soil.	
Greening of the Pacific Games	Plastic pollution	AFD, DOEE, MFAT, UN Environment, UK	2019	\$150,000	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of</p>	<p>Providing support for 350 waste stations for the Pacific Games to address single-use plastic water bottles.</p> <p>Providing 150 water stations for schools after the Pacific Games.</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
					pollutants to air, water, and soil.	
J-PRISM2	Circular economy - waste and marine pollution/plastics	Japan - JICA	2017-2021	US\$15m	RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development	RO3.1.2: Funding for marine litter and microplastics secured and high priority actions implemented.
Moana Taka Partnership	Circular economy - waste and marine pollution/plastics	Donor: Swire Shipping Partners: Various	2018-2021	US\$100,000	RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of pollutants to air, water, and soil.	RO3.3.1: Resource recovery and recycling activities funded and implemented.
<i>Pipeline Projects and Programmes</i>						
Strengthening Coastal Biodiversity Conservation and Management	Strengthening conservation and management of mangrove and seagrass	<i>Donor:</i> German BMU IKI	Pending	€9 million	RO1.2: Minimise multiple pressures on vulnerable Pacific island ecosystems by	RO1.2.1: EbA incorporated into

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
through Protection and Rehabilitation Incentives for Coastal Carbon Sinks in Pacific Island Countries	carbon sinks in Fiji, PNG, Vanuatu and Solomon Islands	<i>Partners: GIZ, SPC</i>			<p>implementing ecosystem-based approaches to climate change adaptation, including responses to OA and sea level rise.</p> <p>RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.</p>	<p>national adaptation plans of at least 3 PICTs.</p> <p>RO2.1.4: Examples of improved coastal and marine ecosystem analysis have been developed, implemented and made available to Members.</p>
GEF ISLANDS	Integrated chemical and waste management building on from the GEF-PAS UPOPS project (see WP 10.3.3.1)	GEF-7	Programme Framework Document (PFD) to be submitted to GEF-Sec in Oct 2018	US\$20m	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.</p>	Project implementation will commence July 2020 after project development.

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
Sustainable Waste Actions in the Pacific	Solid and hazardous waste	AFD	2019 - 2023	€3m	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of pollutants to air, water, and soil.</p>	<p>RO3.1.2: Funding for marine litter and microplastics secured and high priority actions implemented.</p> <p>RO3.3.1: Resource recovery and recycling activities funded and implemented.</p>
France – AFD Biodiversity and Adaptation Initiative	Biodiversity, climate change and resilience initiative	France-AFD/EU/Australia/Canada/New Zealand	2019-2024	€28m	RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of	RO2.1.3: Information on the status of Pacific coral reefs is improved, easily accessed and used to guide more

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
					<p>threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.</p>	<p>effective planning and management of coral reefs in 20% of PICTs.</p> <p>RO2.1.4: Examples of improved coastal and marine ecosystem analysis have been developed, implemented and made available to Members.</p> <p>RO2.2.4: Data, information and knowledge on PAs in PICTs are improved, used and easily accessed by Members and partners through the Pacific Islands Protected Area Portal (PIPAP).</p> <p>RO2.3.2: The conservation status of marine turtles is regularly monitored and information shared with Members and partners.</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
						<p>RO2.3.3: Members progress the establishment two additional marine sanctuaries in the SPREP region for the protection of threatened species.</p>
<p>Reducing plastic waste on cruise ships</p>	<p>Plastic pollution</p>	<p>DEFRA</p>	<p>2019-2020</p>	<p>£50,000</p>	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of</p>	<p>RO3.1.2: Funding for marine litter and microplastics secured and high priority actions implemented.</p> <p>RO3.3.1: Resource recovery and recycling activities funded and implemented.</p>

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
					pollutants to air, water, and soil.	
Regional Recycling Hubs – Fiji and PNG	Circular economy - waste and marine pollution/plastics	Donor: Pacific Regional Infrastructure Facility (PRIF) Members Partners: Various	2018-2023	US\$100m TBC	<p>RO2.1: Effectively manage and protect marine and coastal ecosystems... reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development</p> <p>RO3.1: Minimise the adverse impacts of chemicals and all wastes on human health and the environment via environmentally sound life-cycle management in accordance with agreed regional and international frameworks, including Cleaner Pacific 2025, and significantly reduce the release of pollutants to air, water, and soil.</p>	<p>RO3.1.2: Funding for marine litter and microplastics secured and high priority actions implemented.</p> <p>RO3.3.1: Resource recovery and recycling activities funded and implemented.</p>
Marine Debris Project – Vanuatu and Solomon Islands		Donor: CEFAS Partners: Various	2018-2020	€1.5m		
Proposed Projects and Programmes						

Programme/Project	Thematic Focus	Donor/Partner	Timeline/Status	Value	2017-2026 Strategic Plan Regional Objective	Contributing to Performance Implementation Plan 2019 Target
Islands to Islands - Healthy Oceans Programme	Integrated ocean management (see WP 10.2.1)	GEF-7	Concept to be submitted to GEF-Sec in Oct 2018	\$50m TBC	RO2.1: Effectively manage and protect marine and coastal ecosystems; mitigation of the impacts of fisheries activities to ensure healthy populations of threatened species, and reduce the release of marine pollutants that increase human health risks in order to achieve healthy and productive oceans that support food security and sustainable development.	Project implementation will commence post-2019 within the next PIP period, with new or amended targets.
