

Moana Blue Pacific

PAVILION @COP28

SCHEDULE OVERVIEW

Scheduled Day	Time (Dubai)	Title of Side Event
30/11/2023	10.00 - 10.50am	HL SIDE EVENT: Restoring Island Resilience, Scaling Up the Management of Invasive Species to Increase Climate Resilience at a Large Landscape Scale in Niue and Tonga (Niue and Tonga)
30/11/2023	11.00 - 11.50am	HL SIDE EVENT: Traditional Knowledge and Climate Resilience (Tokelau)
30/11/2023	12.00-12.50pm	HL SIDE EVENT: Digital Earth Pacific - Building resilient Pacific through systematic satellite observation (Pacific Community)
30/11/2023	12.50-1.20pm	HL SIDE EVENT: Signing of Memorandum of Understanding Between Kingdom of Denmark and Pacific Community on Loss and Damage for the Pacific (Pacific Community)
30/11/2023	1.20 - 2.30pm	HL INTERACTIVE SESSION: Loss and damage in reality: the existential threat of climate change on low lying islands of Tuvalu and the Republic of the Marshall Islands and the criticality of good data to inform adaptation options (Pacific Community)
30/11/2023	6.00 - 8.00pm	HL OPENING: Official opening of the Moana Blue Pacific Pavilion and Launch of Mana Moana Pasifika Voices (Australia, Aotearoa New Zealand, SPREP)
1/12/2023	11.00 - 11.50am	HL SIDE EVENT: Pacific Island's Climate Ambitions to Protect Our People and Our Homes (Greenpeace)
1/12/2023	12.00 - 12.50pm	SIDE EVENT: Documenting and applying Traditional Knowledge to enhance community resilience. A traditional Knowledge Database (SPREP)
1/12/2023	1.00-1.50pm	HL SIDE EVENT: Strengthening National Coordination Mechanisms for Effective Climate Finance Delivery in the Pacific SIDS (Solomon Islands)
1/12/2023	2.00 - 2.50pm	SIDE EVENT: What Next For the Pacific Regional Framework on Climate Mobility (Fiji and Tuvalu)
1/12/2023	3.00 - 3.50pm	HL SIDE EVENT: Pacific Climate Financing and the Green Climate Fund (Tonga)
1/12/2023	4.00pm - 4.50pm	SIDE EVENT: The Climate Crisis is a Child Rights Crisis: Climate Justice and Children's Rights (UNICEF)
2/12/2023	10.00 - 10.50am	SIDE EVENT: Amplifying Climate Actions: Capacity Building through Innovative Tools, Partnerships, and South-South Cooperation (SPREP)
2/12/2023	11.00 - 11.50am	SIDE EVENT: Kiribati Youth Rising with Resilience and Pioneering Climate Solutions (Kiribati)
2/12/2023	12.00 - 12.50pm	SIDE EVENT: Hinemoana Halo Ocean Initiative: Indigenous Blue Carbon Partnerships and Climate Leadership (Hinemoana Halo Ocean Fund (H2O Fund) and Conservation International Aotearoa)
2/12/2023	1.00 - 1.50pm	SIDE EVENT: The Role of Data and Traditional Knowledge in Building Climate Resilience in the Pacific (SPREP)

2/12/2023	4.00 - 4.50pm	HL SIDE EVENT: Building Resilience in the Pacific: How the Pacific Climate Change Centre is addressing Climate Change through its key services (SPREP)
3/12/2023	10.00 - 10.50am	SIDE EVENT: Pathways to Island Climate Resilience: Local Solutions in Global Frameworks #ShareYourStory #PeopleAndNaturePositivePacific (WWF)
3/12/2023	11.00 - 11.50am	HL SIDE EVENT: Addressing Loss and Damage: Leadership and lessons from the Pacific (Aotearoa New Zealand & Vanuatu)
3/12/2023	12.00 - 12.50pm	SIDE EVENT: Financing ocean-based climate mitigation, adaptation, and resilience (PIDF)
3/12/2023	1.00-1.50pm	SIDE EVENT: Catalysing investment in the Pacific blue economy (PIDF)
3/12/2023	2.00-2.50pm	SIDE EVENT: Catalysing Private Sector Investment through Climate Resilient Partnerships (SPREP)
3/12/2023	3.00 - 3.50pm	SIDE EVENT: Responding to the Global Stocktake: Mobilizing Finance at Speed and Scale (CFAN)
3/12/2023	4.00-4.50pm	SIDE EVENT: Lessons Learned from Implementing Climate Risk Insurance Solutions in the Pacific (UNCDF)
4/12/2023	9.00 - 9.50am	SIDE EVENT: Connecting climate mitigation to depolluting oceans through concrete solutions in the Pacific Islands (Secretariat of the Basel, Rotterdam and Stockholm Conventions)
4/12/2023	10.00 - 10.50am	HL SIDE EVENT: Plastic Free Pacific (SPREP)
4/12/2023	11.00 - 11.50am	HL SIDE EVENT: International Court of Justice Advisory Opinion on Climate Change (Vanuatu)
4/12/2023	12.00 - 12.50pm	SIDE EVENT: Developing Fiji's Comprehensive Risk and Vulnerability Assessment Methodology (Fiji)
4/12/2023	1.00 - 1.50pm	SIDE EVENT: The work of the Adaptation Fund in Pacific SIDs (Adaptation Fund)
4/12/2023	3.00 - 3.50pm	SIDE EVENT: Leading on Ocean Acidification Monitoring, Policy and Finance in the Pacific to Implement SDG 14.3 (NOAA Ocean Acidification Program, U.S. State Department, OA Alliance, Ocean Foundation; and the Global Ocean Acidification Observing Network (GOA-ON))
4/12/2023	4.00 - 4.50pm	HL SIDE EVENT: Paving the Way for the Risk Pools Against Climate Disaster Risks (PCRIC)
4/12/2023	5.00 - 5.50pm	SIDE EVENT: Geospatial Solutions for Climate Challenges: A Focus on Loss, Damage, and Adaptation (SPREP)
4/12/2023	6.00 - 8.00pm	HL SIDE EVENT: Treaty Talanoa: Pacific Governments and Civil Society championing the global call for a Fossil Fuel Non-Proliferation Treaty (Vanuatu)
5/12/2023	9.00 - 9.50am	SIDE EVENT: Ensuring Ecosystem Integrity to Sustain Deep Ocean Benefits and Values (Deep Sea Conservation Coalition)

■ INDICATES HIGH-LEVEL EVENT (SCHEDULE VERSION 12 DECEMBER 2023)
EVENT DATES AND TIMES ARE ALIGNED WITH DUBAI, UAE. INFO MAYBE SUBJECT TO CHANGE WITHOUT NOTICE.
BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

5/12/2023	11.00 - 11.50am	SIDE EVENT: Fiji's advances, innovations and leadership on action on climate change (Fiji)
5/12/2023	12.00-12.50pm	SIDE EVENT: Vanuatu Roads Design Guide increasing climate resilience across Vanuatu (Vanuatu)
5/12/2023	1.00 - 1.50pm	SIDE EVENT: Building Climate Resilience through Traditional Knowledge in Vanuatu (Vanuatu)
5/12/2023	2.00 - 2.50pm	HL SIDE EVENT: Launching of the Marshall Islands National Adaptation Plan (Republic of Marshall Islands)
5/12/2023	3.00 - 3.50pm	SIDE EVENT: Loss and Damage- Sharing the lived experience of Pacific Islanders (SPREP)
5/12/2023	4.00 - 4.50pm	HL SIDE EVENT: Leveraging adaptation finance for Atoll Nations- Gaps, Needs, Solutions. An event of the Coalition of Atoll Nations on Climate Change (CANCC)
5/12/2023	5.00-5.50pm	HL SIDE EVENT: Empowering Kiribati visions and plans on climate resilient and sustainable water and sanitation infrastructure and services (Kiribati)
6/12/2023	9.00-9.50am	SIDE EVENT: A Nexus Approach to Finance, Biodiversity and Climate (UNESCAP)
6/12/2023	10.00-10.50am	HL SIDE EVENT: O le Tupulaga Talavou ma le Siosiomaga e Fauautua i le Vailiua: Youth leadership and Environment (Samoa)
6/12/2023	11.00-11.50am	SIDE EVENT: Learnings from Adaptation Activities in the Pacific Islands (Adaptation Fund)
6/12/2023	12.00 - 12.50pm	SIDE EVENT: Port Vila Call to Action for a Just Transition to a Fossil Fuel Free Pacific (Vanuatu)
6/12/2023	1.00 - 1.50pm	SIDE EVENT: Loss and Damage Financing in the Pacific Region (PIF)
6/12/2023	2.00 - 2.50pm	SIDE EVENT: Building a resilient Vanuatu "Supporting the Implementation of Vanuatu's Enhanced NDC" (Vanuatu)
6/12/2023	3.00 - 3.50pm	SIDE EVENT: Harnessing Climate Services Information for Fisheries, Tourism and Water Sectors in Vanuatu (Vanuatu)
6/12/2023	4.00 - 4.50pm	SIDE EVENT: The treaty to End Plastic Pollution and its links to the Global Climate Targets (SPREP)
6/12/2023	5.00 - 5.50pm	HL SIDE EVENT: Empowering Youth for wetland conservation to address climate change in the Pacific (SPREP)
7/12/2023	ALL DAY	COP28 THEME: REST DAY - PAVILION IS CLOSED FOR OFFICIAL REST DAY
8/12/2023	9.00-9.50am	SIDE EVENT: Harnessing Climate Information Services: The Success Story of OSCAR system and Agromet Bulletins (Vanuatu)
8/12/2023	10.00 - 11.50am	HL SIDE EVENT: Samoa's Journey on Low Carbon (Samoa)
8/12/2023	12.00 - 12.50pm	SIDE EVENT: The role of Public Development Banks (PDBs) in facilitating enhanced access to climate finance (Fiji)
8/12/2023	1.00 - 1.50pm	SIDE EVENT: Innovative approaches for leveraging Climate Finance (SPREP)

■ INDICATES HIGH-LEVEL EVENT (SCHEDULE VERSION 12 DECEMBER 2023)
EVENT DATES AND TIMES ARE ALIGNED WITH DUBAI, UAE. INFO MAYBE SUBJECT TO CHANGE WITHOUT NOTICE.
BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

8/12/2023	2.00 - 2.50pm	SIDE EVENT: Promoting self-determination for National Adaptation Plans: Leading the way in Marshall Islands (Republic of Marshall Islands and IOM)
8/12/2023	3.00 - 3.50pm	SIDE EVENT: Enhancing Intactness : A New Approach to Adaptation (Solomon Islands)
8/12/2023	4.00 - 4.50pm	SIDE EVENT: Intra-ACP ClimSA Event (OACPS)
8/12/2023	5.30 - 7.00pm	HL SIDE EVENT: Climate and Development Ministerial Coalition of Ambition on Adaptation Finance Launch Event (Vanuatu)
9/12/2023	10.00 - 10.50am	HL SIDE EVENT: Access to Climate Finance : Demand and Supply Side Challenges for PSIDS (SPREP)
9/12/2023	11.00 - 11.50am	HL SIDE EVENT: Champions of Climate, Peace and Security – Nations Shaping the Agenda (Tuvalu and UNDP)
9/12/2023	12.00 - 12.50pm	HL SIDE EVENT: Niue and Ocean Wide (NOW) Trust and Ocean Conservation Commitments (Niue)
9/12/2023	1.00 - 1.50pm	SIDE EVENT: Voyage of Resilience: WAM's Sustainable Maritime Solutions in the Pacific (Waan Aelon in Majel, NEO, GIZ)
9/12/2023	2.00-2.50pm	SIDE EVENT: Coordinated Approach to addressing People-Centred End-to-end Multi-Hazard Early Warning Systems in the Pacific: Weather Ready Pacific - A solution for the Pacific (Tonga and SPREP)
9/12/2023	3.00 - 3.50pm	HL SIDE EVENT: Financing adaptation to climate change for sustainable blue economies in Pacific island countries (Palau and Sasakawa Peace Foundation)
9/12/2023	4.00 - 4.50pm	SIDE EVENT: Capacity Building and Connections: Amplifying Youth Voices for Climate Ambition (Peace Boat)
9/12/2023	5.00 - 5.50pm	HL SIDE EVENT: Planning tools for a Just Energy Transition in the Pacific: A case study in Vanuatu (Vanuatu and Australia)
9/12/2023	6.00 - 8.00pm	HL SIDE EVENT: Poula: The Dance of Pasefika Resilience (Samoa)
10/12/2023	9.00 - 9.50am	HL SIDE EVENT: Lotu Pasifika
10/12/2023	10.00 - 10.50am	SIDE EVENT: Interregional dialogues for SIDS youth voices on climate justice (Island Innovation)
10/12/2023	11.00 - 11.50am	SIDE EVENT: PCCC - SPREP Green and Resilient Pacific Games Initiative – Catalysing Actions on Climate Change (SPREP)
10/12/2023	12.00 - 12.50pm	SIDE EVENT: Message to the International Court of Justice - Our Climate Story (Greenpeace)
10/12/2023	1.00-1.50pm	SIDE EVENT: Taking stock: innovative finance solutions for adaptation and the community level (UNCDF)
10/12/2023	3.00-3.50pm	SIDE EVENT: Pacific Coastal Food System: bridging the climate-food nexus (SPC)
11/12/2023	10.00-10.50am	SIDE EVENT: Gender, Age, and Climate: Inclusive Disaster Risk Financing Solutions for Women, Youth, and Elderly People in Pacific (UNU EHS)
11/12/2023	11.00-11.50am	SIDE EVENT: Criminalization of Ecocide in the Rome Statute of the International Criminal Court (Vanuatu)
11/12/2023	3.00-3.50pm	HL SIDE EVENT: An Inclusive Climate Action with and for Children & Youth: the Role of Education and Participation (UNICEF)

SCHEDULE DETAILS

THURSDAY 30 NOVEMBER 2023

COP28 THEME: OPENING		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
10.00am – 10.50am (30 Nov)	<p>Partnership: Governments of Niue and Tonga</p> <p>Contact(s): Haden Talagi Director Niue's Department of Environment E: Haden.Talagi@mail.gov.nu</p> <p>Atelaite Lupe Matoto Director of Environment, Tonga E: lupe.matoto@gmail.com</p>	<p>Restoring Island Resilience, Scaling Up the Management of Invasive Species to Increase Climate Resilience at a Large Landscape Scale in Niue and Tonga</p> <p>About: Tonga and Niue showcase their global leadership in scaling up the management of invasive species to increase the climate resilience of Pacific Island ecosystems and communities.</p> <p>Governments of Niue and Tonga will discuss their involvement in the development of a pilot for a Netflix documentary series by award-winning filmmaker, Mike Bhana titled: Saving Oceania.</p> <p>This special launch screening event will focus on the world leading efforts of both countries to scale up the management of invasive species to increase the climate resilience of their ecosystems and communities. Niue's Environment Minister has recently made a Pledge backing efforts for Niue to control 4 priority invasive species by supporting a large landscape/seascape scale approach to control Taro Vine, rats, feral pigs and the coral eating Drupella snail by 2030.</p> <p>This work is designed to create green jobs and enhance economic opportunities from Niue's premium tourism brand. Tonga has also Pledged to take a large landscape/seascape scale approach to the management of invasive predators following the successful eradication of rats from Late Island, the largest eradication ever undertaken in the Pacific.</p> <p>Research has shown that, in islands without rats, the coral reefs have 50% more fish and are more resilient to the impacts of climate change. Tonga plans to extend this work</p>

		<p>to expand its national park system and to protect a growing number of its coastal communities.</p> <p>Panel: Hon. Mona AINUU, Niue's Minister of Natural Resources; Sefanaia Nawadra, Director General, Secretariat of the Pacific Regional Environment Programme; Dr. Margaret Leinen, Director of Scripps Institution of Oceanography; and Benjamin Singer, Senior Forest and Land Use Specialist, Green Climate Fund (GCF).</p> <p>Moderator: Steve Menzies</p>
<p>11.00am – 11.50am</p> <p>(30 Nov)</p>	<p>Partnership: Tokelau and MFAT, Aotearoa, New Zealand</p> <p>Contact: Romero Viane Legal and Policy Analyst E: romero.viane@tokelau.org.nz</p>	<p>Traditional Knowledge and Climate Resilience</p> <p>About: To provide insight on Tokelauan traditional knowledge in terms of Climate Change Resilience. It will present on knowledge and methods passed down from generations, used to not only adapt to the changes but to also mitigate the impacts of Climate Change to assist with standing resilient in times of disasters and hazards. This will also touch on early warning systems compared to the systematic and scientific based approaches which are well established in most countries today. Not to mention, a discussion on the reality and reliability of both systems on a remote and isolated community like Tokelau. As well as the importance of traditional knowledge and science working harmoniously as they both complement each other in terms of coverage, mode of distribution and consistency in these much-needed times.</p> <p>Panel: Representatives from Tokelau, New Zealand and SPREP.</p>
<p>12.00pm – 12.50pm</p> <p>(30 Nov)</p>	<p>Pacific Community (SPC)</p> <p>Contact: Andiswa Mlisa Principal Advisor Business Development Pacific, SPC E: andiswam@spc.int</p>	<p>Digital Earth Pacific - Building resilient Pacific through systematic satellite observation</p> <p>About: Showcase the current capabilities of Digital Earth Pacific as a digital public infrastructure to build a resilient Pacific region. Given the vulnerability of Pacific Island countries and territories (PICTs) to climate change, the Pacific region faces unique challenges in managing natural resources and biodiversity, securing economies and livelihoods, and ensuring sustainable food systems. Digital Earth Pacific aims to build the capacity of the Pacific region through adoption and leveraging of the cloud-native geospatial technologies that foster research and systematic observation. Digital Earth Pacific, through demand driven and user-centric approaches, will deliver an operational earth and marine observation system that takes decades of satellite data and makes it easier to</p>

ROOM: MA03G1 – PAVILION - GF

		<p>access and use, empowering knowledge creators and decision-makers across the Pacific.</p> <p>This fundamental public digital infrastructure will ensure all PICTs have access to routinely acquired space data, tools, technologies, and capacity to systematically monitor challenges from climate change to support national, regional, and global commitments such as the 2050 Strategy for the Blue Pacific Continent, the Paris Agreement, and the Sustainable Development Goals.</p> <p>The Pacific Community works with stakeholders across the region to establish Digital Earth Pacific. This requires an emphasis on communications, outreach, and engagement, and creating strong, multi-stakeholder partnerships where finance, data, technology, and expertise can be leveraged and scaled to deliver the outcomes of the program.</p> <p>Moderator: Karena Lyons</p>
<p>1.00pm – 2.50pm</p> <p>(30 Nov)</p>	<p>The Pacific Community (SPC)</p> <p>Contact: Ms. Lisa Kingsberry E: lisak@spc.int WhatsApp: +6799252849</p>	<p>Loss and damage in reality: the existential threat of climate change on low lying islands of Tuvalu and the Republic of the Marshall Islands and the criticality of good data to inform adaptation options</p> <p>About: This interactive session is a scientific showcase using visual data that shows how small increments of sea level rise could amplify extreme events and how this impacts upon communities and critical resources in real ways. The modelling allows Leaders to visually see and engage in the importance of data and knowledge for effective policy making and supports the Pacific’s negotiation positions for COP28, especially the discussions on loss and damage under different scenarios projected by the latest IPCC report. The models also demonstrate the importance of unlocking climate finance to climate proof public infrastructure and investments for all Pacific island countries. It will be co-presented by Pacific Island Countries and the Pacific Community (SPC).</p>
<p>6.00pm – 8.00pm</p> <p>(30 Nov)</p>	<p>Australia, Aotearoa New Zealand, SPREP</p> <p>Contact(s): Nanette Woonton Pavilion Manager E: nanettew@sprep.org</p> <p>Audrey Brown-Pereira Side Events Curator E: audreyp@sprep.org</p>	<p>Official opening of the Moana Blue Pacific Pavilion and Launch of Mana Moana Pasifika Voices</p> <p>About: Official launch of the Moana Blue Pacific Pavilion and launch of the Mana Moana Pasifika Voices III.</p>

FRIDAY 1 DECEMBER 2023

COP28 THEME: WORLD CLIMATE ACTION SUMMIT		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
<p>11.00am – 11.50am</p> <p>(1 Dec)</p>	<p>Greenpeace</p> <p>Contact: Shiva Gounden Pacific Community Engagement Manager and Pacific Advisor Greenpeace, Australia, Pacific E: shiva.gounden@greenpeace.org</p>	<p>Pacific Island's Climate Ambitions to Protect Our People and Our Homes</p> <p>About: Pacific Island peoples and organisations' leadership in addressing fossil fuels which is the root cause of climate change and having a clear pathway for a just transition.</p> <p>This event will be in the format of panel of speakers speaking about the initiatives taken by Pacific Island peoples and organisations in addressing the root cause of climate change. It will highlight the Pacific Islands ambition when addressing the phasing out of fossil fuel and a just transition. It will include the Port Vila Call, The Fossil Fuel Non-Proliferation Treaty, ICJAO etc.</p> <p>Panel: PVC, FFNPF, PISFCC, 350.org, Greenpeace, PEV (tbc)</p>
<p>12.00pm - 12.50pm</p> <p>(1 Dec)</p>	<p>Secretariat of the Pacific Regional Environment Programme (SPREP)</p> <p>Contact: Siosinamele Lui COSPPac Climate Traditional Knowledge Officer, SPREP E: siosinamelel@sprep.org</p>	<p>Documenting and applying Traditional Knowledge to enhance community resilience. A traditional Knowledge Database</p> <p>About: As the first database of its kind, the TK Database fills a critical gap in the appropriate storage and application of TK, member countries will highlight the TK Database and the traditional knowledge that has been collected and stored in the database and ways they have applied this knowledge or integrated this as a foundation for development and community resilience.</p> <p>Growing interest in traditional knowledge, particularly in relation to the prediction of weather or climate extremes, raises issues of the appropriate storage and management of the information collected. The Traditional Knowledge (TK) Database for the storage and use of TK associated with weather and climate prediction in the Pacific was designed with the following principals in mind: 1) preservation of the knowledge, maintaining cultural context wherever possible; 2) respect for intellectual property and cultural sensitivities around data sharing and use; 3) appropriate system design, accounting for on-going costs of system maintenance and often intermittent Internet access; and 4) moving beyond data preservation to ensure continued use and growth of the TK. As the first database of its kind, the TK Database fills a critical gap in</p>

		<p>the appropriate storage and application of TK and provides an important foundation for future developments.</p> <p>Panel: Rossy Mitiepo, Ofa Fa’anunu, VMGD rep, Siosinamele Lui, David Hiba.</p>
<p>1.00pm – 1.50pm</p> <p>(1 Dec)</p>	<p>Partnership: Government of Solomon Islands and SPREP</p> <p>Contact: Fred Patison Climate Finance Adviser, SPREP E: fredp@sprep.org</p>	<p>Strengthening National Coordination Mechanisms for Effective Climate Finance Delivery in the Pacific SIDS.</p> <p>About: Share experience and lessons learned from the Solomon Islands readiness project, UNDP GovRes and the World Bank funded PGSP Project.</p> <p>SPREP as a Green Climate Fund (GCF) accredited entity is providing assistance to the Solomon Islands the GCF National Designated Authority (NDA) to strengthen institutional, fiduciary and policy capacity to improve climate finance access. The readiness support is to build the capacity of the GCF NDA to fulfil its role as the National Designated Authority to engage the GCF.</p> <p>Establishing national coordination was identified as critical to effectively delivery given the multiple partner and stakeholder involved. The SPREP Solomon Island Readiness Project was a catalyst in strengthening coordination and the national through the establishment of the climate finance steering committee. At sub-national and innovative approach to coordinate and priorities community level climate vulnerabilities and priorities was established through the World Bank/UNDP supported Provincial Government Strengthening Programme (PGSP). This approach was recognized in the no objection procedure development by the Solomon GCF NDA to ensure that community vulnerabilities are fully realized in project development and design.</p> <p>Panel: Honourable Minister for Environment and Climate Change - Solomon Island; Dr Melchior Matakai - Permanent Secretary MECDM Solomon Islands; Mr. Fred Patison - SPREP Climate Finance Readiness Adviser; and Dr Momodu - World Bank PGSP Rep (tbc)</p>
<p>2.00pm – 2.50pm</p> <p>(1 Dec)</p>	<p>Partnership: Governments of Fiji and Tuvalu with support from IOM and the Pacific Islands Forum</p> <p>Contact(s): PS Taupo E: ttaupo@gov.tv Sabira Coelho E: scoelho@iom.int Teea Tira E: teeat@forumsec.org Karlos Lee Moresi E: karlosm@forumsec.org</p>	<p>What Next For the Pacific Regional Framework on Climate Mobility</p> <p>About: The Framework recognises the urgent need to strengthen understanding, coordination and cooperation on climate change-related human mobility. In this session Pacific Leaders and partners will share what the regional framework aims to address in the context of climate change related human mobility including the process taken to arrive at this pioneering framework and why it is important for the Pacific.</p>
<p>3.00pm - 3.50pm</p>	<p>Government of Tonga</p>	<p>Pacific Climate Financing and the Green Climate Fund</p>

■ INDICATES HIGH-LEVEL EVENT (SCHEDULE VERSION 12 DECEMBER 2023)
EVENT DATES AND TIMES ARE ALIGNED WITH DUBAI, UAE. INFO MAYBE SUBJECT TO CHANGE WITHOUT NOTICE.
BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

<p>(1 Dec)</p>	<p>Contact(s): Ms. Saane Lolo Deputy CEO Aid Management and Resilient Development Division Ministry of Finance Government of Tonga E: slolo@finance.gov.to</p> <p>Alternate: Lisa Buggy RID Specialist UNDP Pacific Office E: lisa.buggy@undp.org</p>	<p>About: Pacific Island Countries have been pushing for greater climate finance access and reform of funding institutions, to ensure climate action is supported for the most local and vulnerable communities. This panel discussion, hosted by the Government of Tonga, in partnership with the Pacific Island Forum and United Nations Development Programme, brings together Pacific representatives and experts within the climate finance space to discuss recent developments, required reform and ways forward for the Pacific.</p> <p>Panel: Ms. Saane Lolo, Deputy CEO of the Aid Management and Resilient Development Division, Ministry of Finance, Government of Tonga; Dr. Melanie Pill, Research Fellow Climate Change, Indo-Pacific Development Centre, Lowy Institute; Mr. Wayne King, Director of Climate Change, Office of the Prime Minister, Government of the Cook Islands (tbc); Mr. Jean-Paul Penrose, Senior Development and Climate Adviser, Indo-Pacific Directorate, UK FCDO (tbc).</p> <p>Moderator: UNDP Pacific Office Representative (tbc)</p>
<p>4.00pm - 4.50pm</p> <p>(1 Dec)</p>	<p>UNICEF</p> <p>Contact(s): Zoraya El Raiss Cordero UNICEF E: zelraiss@unicef.org</p> <p>Ben Wildfire UNICEF E: bwildfire@unicef.org (remote)</p> <p>Saji Thomas UNICEF E: sthomas@unicef.org (in person)</p>	<p>The Climate Crisis is a Child Rights Crisis: Climate Justice and Children's Rights (UNICEF)</p> <p>About: The International Court of Justice Advisory Opinion on climate change: discussing State obligations on children's rights and climate change under international law.</p> <p>The International Court of Justice Advisory Opinion on state obligations concerning climate change provides an important opportunity to highlight how children's rights under international law are being violated as a result of climate change. This side event will explore and raise awareness of the links between climate change and children's rights and advocate for inclusive climate action for and with children and youth. It will also disseminate information that can be used to bolster ICJ submissions, particularly in relation to question (b)(ii), which asks what the legal consequences for states breaching their obligations should be with respect to present and future generations.</p> <p>The side event will be co-organized by government stakeholders (Vanuatu), regional bodies (SPC), international organizations (UNICEF), and youth organizations (Pacific Island Students Fighting Climate Change).</p> <p>Panel: Vishal Prasad, Pacific Island Students Fighting Climate Change, Campaign Director; Mr Wike Waiwai, Government of Vanuatu, Director of Climate Change Division; Dr Christopher Bartlett, Government of Vanuatu;</p>

SATURDAY 2 DECEMBER 2023

COP28 THEME: WORLD CLIMATE ACTION SUMMIT		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
10.00am – 10.50am (2 Dec)	<p>Secretariat of the Pacific Regional Environment Programme (SPREP)</p> <p>Contact(s): Semi Qamese E: semiq@sprep.org</p> <p>Sione Fulivai E: sionef@sprep.org</p>	<p>Amplifying Climate Actions: Capacity Building through Innovative Tools, Partnerships, and South-South Cooperation</p> <p>About: Pacific Island Countries (PICs) are considered to be at the forefront of climate change and natural disasters. They consistently rank among the top ten most vulnerable countries in the world. These countries face challenges in terms of geographical isolation, limited access to financing, and a small pool of local expertise to tackle climate change impacts and disasters. However, over the past decade, there have been efforts to address these constraints by delivering capacity building actions through innovative tools, the brokerage of knowledge from developers to end users, and lessons learned from other Pacific SIDS and SIDS regions.</p> <p>This event will not only highlight the immense value of accessible online tools for enhancing planning capacities and capabilities of governments and climate change practitioners but also underscores the imperative for resilient development at all levels. The event will also highlight the critical value of cooperation, coordination, partnerships, and lessons learned for enhancing SIDS capacities and capabilities at national, regional, and inter-regional levels.</p> <p>Panel: Mr. Semi Qamese: SPREP PACRES: EbA Learning Tool/MMEL Learning Tool; HE. Mr. Amena Yavoli: KIWA Initiative – Capacity Building initiatives; Ms. Frances Reupena: Pacific Resilience Partnership; Mr. Mark Bynoe: Caribbean Community Climate Change Centre – SPREP; Kiribati: Kiribati National Expert Group and the Joint Implementation Plan (tbc); and Ms. Esline Garaebiti Bule: Director-General, and Chair of Vanuatu National Advisory Board (tbc).</p> <p>Moderator: Ms. Tagaloa Cooper, Director, Climate Change Resilience, SPREP</p>
11.00am – 11.50am	<p>Government of Kiribati</p> <p>Contact(s):</p>	<p>Kiribati Youth Rising with Resilience and Pioneering Climate Solutions</p>

4.00pm – 4.50pm (2 Dec)	Secretariat of the Pacific Regional Environment Programme (SPREP) Contact person: 'Ofa Kaisamy Manager Pacific Climate Change Centre, SPREP E: ofak@sprep.org	Building Resilience in the Pacific: How the Pacific Climate Change Centre is addressing Climate Change through its key services About: Building Resilience in the Pacific through the key services of the Pacific Climate Change Centre. This high-level event is set for Pacific Ministers and officials to provide perspectives on how the Pacific Climate Change Centre is addressing Climate Change through its key services over the three years of its operation. The PCCC is globally respected centre of excellence. It is highly valued by Pacific Island countries and territories as it provides practical support and training to address their adaptation and mitigation priorities. It is underpinned by strong partnerships with Pacific Governments, applied research institutions, donors and the private sector. These collaborations have led to innovative products which are increasing resilience in the Pacific. The PCCC is a trusted source of user-friendly, scientifically robust information on climate and meteorological science, climate change impacts and responses. This information directly supports more effective decision-making in Pacific communities. Panel: Prime Minister of Tonga, Minister of MNRE Samoa, Minister of OEPPC Republic of Marshall Islands.

SUNDAY 3 DECEMBER 2023

COP28 THEME: HEALTH/ RELIEF, RECOVERY AND PEACE		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
10.00am – 10.50am (3 Dec)	WWF Contact: Alfred Ralifo Senior Policy and Government Affairs Manager WWF-Pacific E: aralifo@wwfpacific.org	Pathways to Island Climate Resilience: Local Solutions in Global Frameworks #ShareYourStory #PeopleAndNaturePositivePacific About: A High-Level panel discussion, amplifying the voices from our island communities and first nations people to harness their experiences and insights in coping with climate challenges, emphasizing the significance of giving priority to local nature-based solutions within global climate commitments. During COP28, an assembly of voices representing island communities, governments, intergovernmental organizations, and civil society will come together to share

		<p>their narratives of resilience in the face of complex global challenges. This gathering aims to spotlight the vital role played by local island communities in addressing these crises.</p> <p>Organized by the Global Island Partnership, Climate Action Network Australia, cChange, GEF SGP (Fiji), and WWF, this event seeks to amplify the voices of island communities and indigenous peoples. It will draw upon their wealth of experiences and insights in navigating the impacts of climate change, underscoring the utmost importance of prioritizing locally-driven, nature-based solutions within the broader context of global climate commitments. This focus revolves around identifying and eliminating obstacles that hinder vulnerable island communities' ability to respond to climate and biodiversity related loss and damage, equitable access to essential climate and biodiversity finances, resources, and the capacity required to scaleup and sustain community-led, ecosystem-based adaptation initiatives at the scale and pace needed to match the accelerating climate and biodiversity crises. These efforts are deemed fundamental to achieving the critical objective of limiting global warming to 1.5 degrees Celsius and achieving tangible, on-the-ground impacts where they are most needed.</p> <p>Panel: High-level community voices from Fiji, Solomon Islands, Zenadth Kes/Torres Strait, and Papua New Guinea; High-level government representative from Fiji or Vanuatu; and High-level representative from the Melanesia Spearhead Group.</p>
<p>11.00am – 11.50am</p> <p>(3 Dec)</p>	<p>Partnership: Vanuatu in partnership with Aotearoa New Zealand</p> <p>Contact(s):</p> <p>Dr. Christopher Bartlett Government of Vanuatu E: pacificislandclimatechange@gmail.com</p> <p>Ben Abraham Senior Advisor Climate Finance Policy New Zealand Ministry of Foreign Affairs and Trade E: Ben.Abraham@mfat.govt.nz</p>	<p>Addressing Loss and Damage: Leadership and lessons from the Pacific</p> <p>About Recent breakthroughs in international support for loss and damage finance have come on the back of decades of advocacy from the Pacific. The Pacific are also leading by example in implementing national approaches to addressing loss and damage. Through UNFCCC negotiations, have clearly articulated how the Loss and Damage Fund must operate programmatically with simplified access to effectively deliver for SIDS.</p> <p>This event highlights Pacific leadership through examples of national action to address both economic non-economic loss and damage facing SIDS. The event will be opened by Hon. Ralph Regenvanu the Pacific Champion for Loss and Damage and a panel of other High-level Pacific representatives will share effective responses to loss and damage that can be funded now and that represent what the Loss and Damage Fund must be able to support.</p> <p>High-level representatives from donor countries will respond as discussants highlighting how the approaches fit their</p>

With the release of the Global Stocktake, it is unequivocal that urgent climate action at an unprecedented scale and pace is required to course correct and ensure Island nations survival. Finance is critical to enable this step.</p> <p>In the Pacific, our leaders have made it clear that access to climate finance remains a top priority. While discussion of climate finance flows in the region has largely centered on scaling up investments and accelerating access to climate finance, this event aims to push discussion to explore innovative financial mechanisms and approaches that are relevant, specific and timely for the Pacific. It will create a space where bold ideas and solutions can be brought to light. Panelists will address financial mechanisms, such as blue bonds, debt-for-nature swaps, regional and national fund structures, and the importance of long-term, lasting capacity building that focuses on country needs and maintaining country talent. Conversation will encompass practical approaches to accessing finance that challenge the status quo and present opportunities to scale.</p> <p>Programme: Opening remarks from the Prime Minister of Tonga and Pacific Political Champion on Climate Finance, Honourable Siaosi Ōfakivahafolau Sovaleni (tbc).</p> <p>Panellists: Ms Coral Pasisi (SPC), Mr Phonesavanh Latmany (Papua New Guinea CFAN Advisor), Ms Anne Rasmussen (AOSIS), Dr Shivendra Michael (Fiji Negotiator), Mr Karlos Lee Moresi (PIFS) (tbc).</p>

		Moderator: Laetitia De Marez, Program Director, CFAN
4.00pm – 4.50pm (3 Dec)	United Nations Capital Development Fund (UNCDF) Contact: Mr. Krishnan Narasimhan Programme Manager and Lead Insurance and Climate Adaptation Specialist, UNCDF E: krishnan.narasimhan@uncdf.org	Lessons Learned from Implementing Climate Risk Insurance Solutions in the Pacific About: In this panel discussion, UNCDF’s Pacific Insurance and Climate Adaptation Programme (PICAP) and its partners will share exciting results and lessons learned from implementing climate risk insurance solutions in the Pacific. Preceded by the beneficiary impact stories, an experienced panel of experts will highlight practical approaches to working with country stakeholders in addressing the protection gap. To cope with the consequences of frequent and severe disasters in the south Pacific, the Pacific Insurance and Climate Adaptation Programme (PICAP) was launched in 2021 aiming to improve the financial preparedness and resilience of the Pacific people. In the first two years, the programme has seen immense success with almost 5000 beneficiaries covered in Fiji, Vanuatu and Tonga, of which, 47% are women and 12% are persons with disabilities. Additionally, during the first months of 2023, a total of 1097 beneficiaries have received microinsurance payouts after heavy rainfall in Fiji and two tropical cyclones in Vanuatu. Attaining all of these achievements in a short period of time has not been without challenges. To strengthen continuous learning and knowledge-sharing, the programme team continuously made efforts to systematically capture the lessons learned and some of the main lessons related to: partnerships, innovative insurance product development, distribution, outreach and capacity-building, managing for impact and sustainability and evidence-based programming. Panel: Mr. Krishnan Narasimhan, Programme Manager and Lead Insurance and Climate Adaptation Specialist, United Nations Capital Development Fund (UNCDF); Ms. Ana Ika, Chief Economist, Tonga Ministry of Finance; Senior representative from the Ministry of Climate Change, Vanuatu; Ms. Sinja Buri, Team Lead Solutions and Practice Partnerships at the Munich Climate Insurance Initiative, hosted at the United Nations University - Institute for Environment and Human Security (UNU-EHS); and Mr. Veilawa Rereiwasaliwa, Director, Tower Group Services, Fiji

MONDAY 4 DECEMBER 2023

COP28 THEME: FINANCE/ TRADE/ GENDER EQUALITY/ ACCOUNTABILITY		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
<p>9.00am – 9.50am</p> <p>(4 Dec)</p>	<p>Secretariat of the Basel, Rotterdam and Stockholm Conventions</p> <p>Contact: Tatiana Terekhova Programme Management Officer Secretariat of the Basel, Rotterdam, and Stockholm Conventions E: tatiana.terekhova@un.org</p>	<p>Connecting climate mitigation to depolluting oceans through concrete solutions in the Pacific Islands</p> <p>About: The high-level event will discuss how the Pacific Islands strive towards achieving sustainable waste management, between control of flows of plastic wastes and reduction of greenhouse gases emissions.</p> <p>Marine plastic pollution is a global environmental threat. In the Pacific region, which is hard-hit by climate related disasters, marine plastic pollution magnifies climate impacts.</p> <p>The exponential growth of trade in plastic wastes, which are in some cases hazardous and in others unsuitable for recycling has become a major concern. Plastic Waste Amendments to the Basel Convention are a welcome global policy development for better controlling flows of plastic wastes and preventing countries from receiving unwanted waste which they do not have capacity to safely manage.</p> <p>At the regional level, the Waigani Convention, a regional treaty aimed at tackling hazardous waste and other pollutants in the Pacific region, has long been a crucial instrument for environmental protection and sustainability. In October 2023 Parties to the Waigani Convention made history by adopting its first-ever amendment marking a significant step toward aligning the Convention with international efforts to combat plastic waste.</p> <p>Plastic pollution causes environmental disruption: pollution of soil and water systems, emission of methane gas from landfills, thinning of ozone layer, negative impact on marine and forest ecosystems by ultraviolet radiation. Plastics are carbon intensive, consuming 6% of global oil production and can be carbon intensive to dispose of, particularly if they are burned in the open.</p> <p>Pacific Islands are in a particularly vulnerable position. Why? Plastic waste likely will end up in illegal landfills, burned in the open or dumped in the ocean. Failure to safely manage it contributes to GHG emissions (black carbon aerosols have 5,000 times global warming potential of CO₂). Waste sector contributes to the GHG emissions globally. Open dumping accounts for 31%, with some lower-income countries relying on it at 93%.</p> <p>Prevention and recovery of wastes have positive consequences for reducing GHG emissions in all economic sectors. BRS and</p>

		<p>Minamata Conventions Secretariats outlined holistic approach in the report on interlinkages between chemicals, wastes & climate change.</p> <p>There are exciting initiatives in Pacific Islands to reduce marine pollution, such as the SPREP Moana Taka Partnership providing a regional opportunity to export hazardous wastes for environmentally sound management and disposal elsewhere.</p> <p>SIDS-to-SIDS experience will be shared through the Global Environment Facility ISLANDS Programme by the Caribbean partners.</p> <p>Panel: Mr Rolph Payet, the Executive Secretary of the Basel, Rotterdam and Stockholm conventions; Mr Sefanaia Nawadra, Director-General, Secretariat of the Pacific Regional Environment Programme (SPREP), high-level representative of Cook Islands (tbc), Ms Jewel Batchasingh, Director, the Basel Convention Regional Centre for Training and Technology Transfer for the Caribbean.</p>
<p>10.00am - 10.50am</p> <p>(4 Dec)</p>	<p>Secretariat of the Pacific Regional Environment Programme (SPREP)</p> <p>Contact: Dr. Mohammed Asid Zullah Pollution Adviser SPREP E: mohammedz@sprep.org</p>	<p>Plastic Free Pacific</p> <p>About: Plastic waste has become a key driver of pollution across the world, overwhelming marine, terrestrial and aerial ecosystems.</p> <p>In September 2021, Pacific leaders expressed grave concern about the environmental, social, cultural, economic, human rights, human health, and food security impacts of plastic pollution. They adopted a regional declaration on the prevention of marine litter and plastic pollution and its impacts, which calls for action to reduce and eliminate plastic pollution.</p> <p>In July 2022, Pacific Islands Forum leaders adopted the ambitious 2050 strategy for the blue Pacific continent. One of the strategy's seven key themes is "ocean and environment," which commits to protecting the ocean and its resources from pollution. But many measures are working well, such as the comprehensive regional framework for sustainable waste management and pollution prevention, Cleaner Pacific 2025. Nineteen of the twenty-one Pacific countries and territories (90%) have policies banning single-use plastics and polystyrene, and more countries are declaring commitments to do so. The total pledge will soon reach 100% of Pacific island countries and territories. The Pacific islands are setting an example for the rest of the world in the fight against plastic pollution. They are showing that it is possible to take action, even in the face of significant challenges.</p> <p>Panel: (tbc)</p>
<p>11.00am – 11.50am</p> <p>(4 Dec)</p>	<p>Government of Vanuatu</p> <p>Contact: Kemson Tavdey</p>	<p>International Court of Justice Advisory Opinion on Climate Change</p> <p>About: An advocacy approach to inform and request countries, organizations, civil society and youths to support the ICJ legal</p>

		<p>will discuss how Risk Pools can be used as an architecture to mobilise climate and disaster risk finance & insurance to reach those who are most in need.</p> <p>Panel: (tbc)</p>
<p>5.00pm – 5.50pm</p> <p>(4 Dec)</p>	<p>Secretariat of the Pacific Regional Environment Programme (SPREP)</p> <p>Contact: Vani Koroisamanunu Environmental GIS Specialist, SPREP E: vanik@sprep.org</p>	<p>Geospatial Solutions for Climate Challenges: A Focus on Loss, Damage, and Adaptation</p> <p>About: This side event will explore the use of geospatial technologies and methods to address climate-related issues with a specific emphasis on understanding, mitigating, and adapting to the impacts of loss and damage to secure a resilient Pacific Community.</p> <p>This side event will host a talanoa panel emphasizing the role of Geospatial Information Systems (GIS) in assessing and mitigating these impacts, combining data, mapping, and analytical tools. The integration of GIS in the Pacific has not only bolstered the region's capacity to monitor and respond to climate changes but has also fostered cross-sector collaboration and community engagement, ultimately contributing to a more sustainable and resilient future for the region.</p> <p>The discussion focuses on the significant role played by stakeholders at various levels in enhancing climate resilience in Pacific island nations using GIS technology as a crucial tool that empowers governments, organizations, and communities to make informed decisions and collaborate in building resilience to address the challenges posed by climate change.</p> <p>The Pacific islands urgently call for international action, emphasizing mitigation and support for adaptation using innovative GIS technology towards a resilience-building effort for our Pacific leaders.</p> <p>Panel: - Honourable John Silk (RMI), Ms. Filomena Nelson - SPREP, CSIRO Australia, Ms. Leba Gaunavinaka, Fiji, Ms. Andiswa Mlisa - Digital Earth Pacific,</p> <p>Moderator: Vani Koroisamanunu, SPREP</p>
<p>6.00pm – 8.00pm</p> <p>(4 Dec)</p>	<p>Government of Vanuatu</p> <p>Contact: Aumatagi Joe Moeono-Kolio Chief Advisor, Pacific Secretariat - The Fossil Fuel Non-Proliferation Treaty Initiative E: joe@fossilfuel treaty.org</p>	<p>Treaty Talanoa: Pacific Governments and Civil Society championing the global call for a Fossil Fuel Non-Proliferation Treaty.</p> <p>About: Pacific SIDS fought hard to enshrine in the Paris Agreement the global goal to limit average temperature rise to below 1.5 degrees C. There is now overwhelming scientific evidence that existing fossil fuel reserves would lead to a significant overshoot of 1.5 degrees if consumed. Rather than phasing out extraction, many fossil fuel producers continue to expand their operations and continue to explore for new reserves. The logic is simple: unless we limit production (expansion), we will never be able to limit consumption (emissions).</p>

BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

		<p>To date, there has been very little discussion about how to manage a rapid, global phase out of fossil fuels while continuing to sustainably develop. This event brings together our leaders and Pacific Treaty Champions from across the moana for an important discussion on the need for global governance of fossil fuel phaseout and to make a collective call for the development of a Fossil Fuel Non-Proliferation Treaty.</p> <p>We urgently need to establish the rules to govern fossil fuel phaseout which at present, remains unmanaged. To that end, 8 Governments have made the call for a new international mechanism to explicitly manage the phaseout of fossil fuels in line with the goals of the Paris Agreement and initiate a global, Just and Equitable transition to renewable energy.</p> <p>Panel: The Hon Ralph Regenvanu, Minister for Climate Change Adaptation, Energy, Environment, Meteorology, Geo-Hazards and Disaster Management (Vanuatu); The Hon Seve Paeniu, Minister of Finance and Economic Development (Tuvalu); Dr Tzaporah Berman, Chair & Founder of the Fossil Fuel Non-Proliferation Treaty Initiative; Rev James Bhagwan, General Secretary, Pacific Conferences of Churches; Selina Leem, Poet & Climate Activist, Marshall Islands; Other panellists (tbc)</p> <p>Moderator: Taholo Kami</p>

<p>9.00am – 9.50am</p> <p>(5 Dec)</p>	<p>Deep Sea Conservation Coalition</p> <p>Contacts: Phil McCabe Pacific Regional Lead Deep Sea Conservation Coalition E: philmccabe101@gmail.com</p>	<p>Ensuring Ecosystem Integrity to Sustain Deep Ocean Benefits and Values</p> <p>About: This event fits within a series of discussions around advancing increased focus and funding toward a sustained, comprehensive deep-sea scientific research program aimed at increasing knowledge and capabilities among Pacific States for marine management and evidence-based decision making on ocean matters. Sustaining ocean health and resilience is a regional and global priority.</p> <p>Given the lack of scientific understanding of deep-sea ecosystems and the cumulative existing stressors upon their health and functioning, as well as pressing considerations about future activities in the deep, more knowledge and capabilities are required to enable evidence-based decision making and optimised sustainable management of our ocean.</p> <p>Increased focus and funding for a sustained, comprehensive deep-sea scientific research program, including research into marine genetic resources, is a need recognised by Pacific island peoples and governments, the marine scientific community, environmental groups and global partners. Such a program could, among other things, include an increased focus on the benefits (both monetary and non monetary) of marine genetic resources, the natural capital values provided by healthy ecosystem services such as carbon sequestration and food security, and other potential sustainable ocean uses, with regional capacity building and the transfer of technology as top cross-cutting priorities.</p> <p>Panel: Vanuatu & Palau High-Level representatives; Developed State High-Level representative; Pacific indigenous Leader; Deep Sea Scientist; and University of South Pacific representative.</p>
<p>11.00am – 11.50pm</p> <p>(5 Dec)</p>	<p>Fiji Government</p> <p>Contact: Prashant Chandra Manager Climate Change Division, Office of the Prime Minister Fiji Government E: rashant.chandra01@pmoffice.gov.fj</p>	<p>Fiji’s advances, innovations and leadership on action on climate change</p> <p>About: Highlighting Fiji’s advances, innovations and leadership on action on climate change with respect to regional and global climate change development priorities, and future plans for addressing climate change.</p> <p>Since Fiji’s tenure as Presidency of COP23, the country has taken a number of steps to advance both climate change adaptation and mitigation and has emerged as a regional and global leader in developing innovative responses to climate change. This side event will provide an opportunity to share experiences and lessons learned from Fiji’s climate change adaptation and mitigation programs. It will also provide a platform for Fiji to share the country’s vision for climate change action into the future, including its long-term net zero strategy as well as priorities for regional coordination across the Pacific, and guidance to the international community and development</p>

BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

		<p>partners on how they can best support a Pacific-led approach to climate change adaptation and mitigation. Panelists from regional organizations, civil society, and development partner organizations will be invited to share insights on Fiji's initiatives and how they can be innovated, scaled up and replicated throughout the Pacific region.</p> <p>Panel: Fiji Prime Minister Hon Sitiveni Ligamamada Rabuka OR Department of Climate Change: Prashant Chandra, Officer-in-charge: Pacific Islands Forum Secretariat or GGGI; WRI (NDC & CFS) or IFC, WB (green bonds) Prashant Chandra (formerly WRI); Daniel Lund, Special Adviser and Drua Incubator Principal Analyst; Pacific civil society organization or private sector FCOSS PICAN or FCEF (tbc).</p> <p>Moderator: Noa Seru, DT Global Climate Finance Specialist</p>
<p>12.00pm – 12.50pm</p> <p>(5 Dec)</p>	<p>Government of Vanuatu</p> <p>Contact: Moirah Matou Project Manager VanKIRAP VMGD E: mmatou@vanuatu.gov.vu</p>	<p>Vanuatu Roads Design Guide increasing Climate Resilience across Vanuatu</p> <p>About: This side event is to showcase the new revised Vanuatu Roads Design Guide to build climate resilient roads in Vanuatu.</p> <p>Vanuatu government in partnership with Infrastructure Sector - Vanuatu Public Works Department (PWD) under Van-KIRAP project through Vanuatu Meteorology & Geo-Hazards Department (VMGD) is now using Climate change projections for Vanuatu. This new climate services tool is developed by CSIRO- Australia which includes extreme rainfalls, sea level rise, and extreme temperatures as well as intensive tropical cyclones projections. CSIRO and PWD engineers used future climate change projects of extreme climate events to be factored into the Vanuatu Roads Design Guide.</p> <p>GCF funded project, Van-KIRAP acquired a new drone with LIDAR capability, which provides this sector with higher resolution data on the terrain, advancing the capability for PWD engineers to better design roads that are resilient to climate change. PWD now has a revised road design guide. Capacity building and training on the new Road Design guide has up- skilled the engineers to improve designs of culverts and other roads infrastructure. In the past the road design guide has been based on historical climate data. However, through the Climate Information Services for Resilient development (CISRD)/Van-KIRAP, the road designs in Vanuatu is now based on future climate extremes and therefore building more climate resilient infrastructures in Vanuatu.</p> <p>Panel: High level representatives from, MoCC, PWD, SPREP, CSIRO and VMGD</p>
<p>1.00pm – 1.50pm</p>	<p>Government of Vanuatu</p> <p>Contact:</p>	<p>Building Climate Resilience through Traditional Knowledge in Vanuatu</p>

TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
9.00am – 9.50am (6 Dec)	United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) Contact: Patrick MARTIN (PhD) Regional Advisor on Green Finance Macroeconomic Policy and Financing for Development Division Financing for Development Section UNESCAP E: patrick.martin@un.org	A Nexus Approach to Finance, Biodiversity and Climate About: The session will examine the interplay of the various financial instruments and mechanisms to address climate change and biodiversity. In recent years, various financial tools and mechanisms have emerged to tackle the challenges of climate change and biodiversity loss. These include carbon markets, green bonds, and debt-for-nature swaps. However, there needs to be more discussion of how these instruments intersect. A nexus approach could uncover synergies and identify trade-offs by analysing the interactions among multiple sectors. A nexus approach has the potential to effectively address these complex environmental challenges by considering their interrelated nature and promoting integrated management and governance and reducing unintended consequences for countries. Panel: Karlos Lee Moresi, Team Leader Climate Change and Resilience, Pacific Islands Forum; Jane Hutchinson, Co-CEO, Pollination Foundation; Avinash Persaud, Special Envoy to the Prime Minister of Barbados on Investment and Financial Services; Government Representatives (tbc) Moderator: Patrick Martin, Regional Advisor on Green Finance Macroeconomic Policy and Financing for Development Division Financing for Development Section, UNESCAP
10.00am – 10.50am (6 Dec)	Government of Samoa Contact: Elisapeta Areta Ministry of Natural Resources and Environment, Samoa E: elisapeta.aretam@mnre.gov.ws	O le Tupulaga Talavou ma le Siosiomaga e Faufautua i le Vailiua: Youth leadership and Environment About: This will highlight the impacts of climate change on youth in Samoa. Youth visibility has become a crucial group in decision-making for now and the future. In efforts to increase floor time given to youth, government of Samoa has extended the floor to our young representatives. The Government of Samoa presents the first ever COP, Youth Side-Event: O le Tupulaga Talavou ma le Siosiomaga e Faufautua i le Vailiua Youth leadership and Environment. Panel: Moemoana Safa'atoa Schwenke, Miss Samoa and Climate Advocate; Marinda Leiataua, Youth Climate and Waste Advocate; Nicc Moeono, Youth Energy Expert; and Brianna Fruean, Climate Warrior/ Advocate.
11.00am – 11.50am (6 Dec)	Adaptation Fund Contact: Vladislav Arnaoudov	Learnings from Adaptation Activities in the Pacific Islands About: A joint event where the evaluation units of the Green Climate Fund (GCF), Global Environmental Facility (GEF), Climate Investment Funds (CIFs) and Adaptation Fund (AF) will

	<p>Project Manager, VanKIRAP VMGD E: mmatou@vanuatu.gov.vu</p>	<p>About: The side event is to show case all tailored climate information services and tools provided to Water, Tourism and Fisheries through VanKIRAP project.</p> <p>This side event is to showcase how climate data is managed and tailoring of Climate services to the sectors in Vanuatu. VMGD houses more than a million record of historical climate data records on the CiIDE database. The latest 30 years of data record provided to delivery partners APCC, CSIRO and BoM to research and develop climate service tools for the sectors. For Tourism and Fisheries sector, monthly tailored climate bulletins are provided the Tourism investors to better plan tourism activities and save their assets during climate disasters, and similarly for fishing activities. Through CSIRO the climate futures portal provides guidance to Tourism investors to reduce the risk to climate disasters, when planning to make long term investment in the tourism industry in Vanuatu. Similarly for Fisheries future predictions of coral bleaching and sea level rise is also available.</p> <p>For Water Sector, ground water monitoring devises such as the Automatic River gauges (AriG) are installed for closer monitoring of river catchment area at the Sarakata river catchment area in Santo. All data received are provided in Realtime and directly linked to VMGD. The information is communicated to the NDMO cluster groups to inform communities of any flooding and precaution for the community. Information received by VMGD from the AriG is communicated to communities within the catchment area should there be a risk of flooding in the area.</p> <p>Panel: Representatives from MoCC, VFD, DoWR, VMGD, DoT</p>
<p>4.00pm – 4.50pm (6 Dec)</p>	<p>Secretariat of the Pacific Regional Environment Programme (SPREP)</p> <p>Contact: Bradley Nolan PacWastePlus Programme Manager SPREP E: bradley@sprep.org</p>	<p>The treaty to End Plastic Pollution and its links to the Global Climate Targets</p> <p>About: In March 2022, at the resumed fifth session of the UN Environment Assembly (UNEA-5.2), a historic resolution was adopted to develop an international legally binding instrument on plastic pollution, including in the marine environment. 99% of global plastic production is made with fossil fuels plastic waste is just another form of pollution from the fossil fuel industry along with significant greenhouse gas emissions. The plastic pollution crisis is a climate crisis for our ocean and coastal communities. Already, plastics are responsible for 3-4% of global greenhouse gas emissions; if they continue to grow, this will triple by 2050. Further, microplastics tiny plastic particles and fibres can harm bacteria and plankton in the ocean. These organisms are essential for absorbing CO2 from the atmosphere and are a big reason why the ocean has effectively moderated Earth’s climate throughout history. Unless we reduce plastics, we not only produce more emissions, but we also damage the natural systems that are helping to slow climate change combination that will spell disaster for global efforts to limit climate change to liveable levels that will keep our ocean</p>

		Natural Resources and Environment. Presentations from Tanuvasa Ioane Iosefo (Project Manager), Elisapeta R Areta – Toma (Principal Climate Change Officer) and Bernadette Patila Amosa (Senior Climate Change Scientific and Research Officer); Vainalepa Toiata Uili (Assistant CEO – Renewable Energy); Moafanua Tolusina Pouli (Assistant CEO – Forestry); and Saurav J Bansel
12.00pm - 12.50pm (8 Dec)	Fiji Government Contact: Prashant Chandra Manager Climate Change Division Office of the Prime Minister E: rashant.chandra01@pmoffice.gov.fj	The role of Public Development Banks (PDBs) in facilitating enhanced access to climate finance About: Highlighting the role of Public Development Banks (PDBs) in facilitating enhanced access to climate finance to support and implement national climate change development priorities, that will be anchored by the experiences of the Fiji Development Bank (FDB), and from other Pacific PDBs and multilateral finance institutions (MFIs) such as the International Monetary Fund (IMF) and Asian Development Bank (ADB). There are approximately 450 PDBs globally working at subnational, national, regional, international, and multilateral levels. Collectively they disburse around USD2 trillion annually, which is 10% of the total amount invested in the world every year by all public and private sources combined. Globally, PDBs have the potential to extend more than USD400 billion in climate finance per year. Virtually every country in the Pacific has at least one PDB, yet few of these have been active in facilitating access to climate finance in the region. One notable exception is FDB, which has gained accreditation to the Green Climate Fund (GCF), and which has so far secured approval for one GCF-funded project. It is anticipated that in the future FDB, will expand its efforts to access GCF and other climate financing mechanisms and will build its own capacity to leverage public resources to crowd in private sector investment through blended finance projects. FDB experience with climate finance demonstrates important lessons learned, and there is significant potential for the FDB example to guide other PDBs in the Pacific as they aspire to GCF accreditation, and to expand the availability of public and private sector financing for climate adaptation. Panel: FDB representative (Setaita Tamanikaiyaroi); panelists from Pacific PDBs; panelists from Pacific-facing MFIs; and panelist from the Green Climate Fund. Moderator: Dr. Keith Bettinger, DT Global Climate Specialist
1.00pm – 1.50pm (8 Dec)	Secretariat of the Pacific Regional Environment Programme (SPREP) Contact(s): Semi Qamese	Innovative approaches for leveraging Climate Finance About: Pacific Island Countries (PICs) are considered to be at the forefront of climate change and natural disasters. They consistently rank among the top ten most vulnerable

	<p>E: semiq@sprep.org</p> <p>Sione Fulivai E: sionef@sprep.org</p>	<p>countries in the world. These countries face challenges in terms of geographical isolation, limited access to financing, and a small pool of local expertise to tackle climate change impacts and disasters. However, over the past decade, there have been efforts to address these constraints with access to climate finance considered a high priority.</p> <p>This event will highlight the respective initiatives and approaches developed or adopted by Pacific governments and resilience practitioners their endeavours to achieve enhanced levels of efficiency and effectivity in accessing, managing, and disbursing climate finance through the development of innovative mechanisms, methodologies, products, and tools.</p> <p>Panel: Ms. Salome Tukuafu: SPREP Project Coordination Unit (tbc); Ms. Krystina Tatuava: Cook Islands: National DAE to GCF; Ms. Lu'isa Tu'i'afitu Malolo: Tonga National Climate Change Fund; and Ms. Laetitia De Marez: Rocky Mountain Institute: CFAN-Climate Finance Access Network (tbc)</p> <p>Moderator: Mr. Semi Qamese: SPREP GCCA+ PACRES Project</p>
<p>2.00pm - 2.50pm</p> <p>(8 Dec)</p>	<p>Partnership: Government of the Republic of the Marshall Islands/International Organization for Migration (IOM)</p> <p>Contact: Angela Saunders Head of Sub Office Marshall Islands International Organization for Migration E: aksaunders@iom.int</p>	<p>Promoting self-determination for National Adaptation Plans: Leading the way in Marshall Islands</p> <p>About: The event will share good practices from the Republic of the Marshall Islands to ensure that drafting of National Adaptation Plans are developed with self-determination as a guiding principle; this is accomplished through effective and wide-reaching community consultations ensuring social inclusion of women, youth, persons with disabilities and other vulnerable populations.</p> <p>The RMI NAP is developed under the principles of self-determination and is our survival plan, our future which put community consultations at the forefront of the NAP development. Extensive community consultations lead by all Marshallese researchers took place across 15 atoll/islands (more the 50% of the local government jurisdictions), reaching urban, semi-urban and rural communities spanning over 120 days in the field. The RMI NAP community consultations utilized a variety of qualitative and quantitative methods, including locally designed methods, to ensure maximum community engagement and holistic community input. According to experts, these community consultations that were conducted for the RMI NAP have set a new standard in consultation for adaptation plans in Small Island Developing States, and arguably globally.</p> <p>Aligned with the RMI principles of self-determination, the side event aims to highlight effective practices from the RMI in community consultations for NAPs. The side event will focus on the progress achieved till date on how effective community consultation can inform NAPs, showcasing the need to put</p>

		<p>community voices at the forefront; developing action points in NAPs to enhance community voices to future policy decisions and community-based solutions; and sharing lessons learned from these processes.</p> <p>Panel (tbc): Climate Envoy, Kathy Jetnil-Kijiner; Director Clarence Samuel, Climate Change Directorate; Jobod Silk, JoJikum NGO (Youth); Yoshiko Yamaguchi, researcher</p>
<p>3.00pm - 3.50pm</p> <p>(8 Dec)</p>	<p>Government of Solomon Islands</p> <p>National Partners: Ministry of Environment, Climate Change, Disaster Management and Meteorology; Ministry of Finance; Ministry of Mines, Energy and Rural Electrification; and Ministry of Fisheries and Marine Resources; and Tina River Hydropower Development Project.</p> <p>Contact: Sarina Laurence Communication Advisor Tina River Hydropower Development Project E: sarina@tina-hydro.com</p>	<p>Enhancing Intactness: A New Approach to Adaptation</p> <p>About: This side event will showcase the success and impact of the different Solomon Islands projects as examples of innovative climate adaptation instances at nested scales from the local to the national. These will include the catchment level protection approach for the upper catchment of the Tina River, which hosts the Tina Hydropower Development Project, as well as the national scale Sky Islands Pledge which has seen the protection of more than 21% of Solomon forests from round logging. These approaches are united by the common theme of intactness, whereby climate adaptation success is founded on continued intactness of customary land and indigenous lifeways practiced within customary land spaces. These projects are highlighted as a model for sustainable and climate-friendly energy generation for a developing nation with the support of our Pacific neighbours, lenders and partners.</p> <p>It will also highlight the national adaptation potential of the Bina Harbour development as a multifaceted response to the climate crisis, through its enhanced value addition to the shifting tuna resource, and through its contribution of comprehensive climate resilience to the national transport network of the country.</p> <p>The side event plans to introduce a new funding platform called Financing Adaptation Through Enhanced Intactness (FATEI) which Solomon Islands government will be using to mobilise adaptation finance around the common themes of biophysical, cultural and socioeconomic intactness. with a focus on scalability and replicability.</p> <p>The aim is to creating partnerships and collaborations with organisations, governments, and investors interested in promoting Tina, Sky Islands and Bina as examples of climate adaptation and sustainable development projects worldwide.</p> <p>It also seeks to demonstrate the success of a Public Private Partnership Financing arrangement and showcasing how a well-established structure can mobilise international financing for a developing country.</p> <p>Panel: Dr Melchior Mataki, Permanent Sectary Ministry of Environment, Climate Change, Disaster and Meteorology (MECDM); Tina River Hydropower Development: (Fred Conning); Sky Islands (Lysa Wini); Bina Harbour</p>

5.30pm - 7.00pm (8 Dec)	<p>Government of Vanuatu</p> <p>Contact: Dr Christopher Bartlett Climate Diplomacy Manager Government of Vanuatu E: pacificislandclimatechange@gmail.com</p>	<p>Climate and Development Ministerial Coalition of Ambition on Adaptation Finance Launch Event</p> <p>About: This high-level 2023 Climate and Development Ministerial event will bring together ministers and heads of financial institutions championing new solutions for enhanced access and delivery of adaptation finance to outline their commitment to a shared Vision and a series of Priority Actions.</p> <p>Vanuatu, along with the UAE, UK and Malawi, are co-hosting the 2023 Climate and Development Ministerial (C&DM) process. It involves approximately 30 countries and international institutions committing to a Vision as well as specific actions to improve the delivery of, and access to, adaptation finance for the countries most affected by climate change. As well as Vanuatu as a co-host of this process, led by Minister Regenvanu, Samoa (as AOSIS Chair) and Australia, Tuvalu, and New Zealand are among the countries involved in the process. The ministerial event at COP28 will showcase the outcome of the C&DM (bringing together ministers and heads of financial institutions to outline their commitment to a shared Vision and a series of Priority Actions) as well as create an opportunity for additional champion countries and institutions to sign on. Keeping the spotlight on adaptation finance at COP28 will be essential for an effective outcome that delivers on the needs of climate vulnerable countries such as SIDS and LDCs.</p> <p>Panel: Co-hosts of the C&DM: the UAE, Vanuatu, Malawi, and the UK.</p>

	<p>Avi Rubin Vice President Tofia Niue E: avirubin2001@yahoo.com E: namhopotoa@gmail.com E: coralp@spc.int E: josie.tamate@gmail.com</p>	<p>innovative Sustainable Funding Mechanism for ocean protection that includes climate action.</p> <p>Niue recently launched its NOW Trust and Ocean Conservation Commitments (OCCs), as the sustainable financing mechanism that will support a climate resilient sustainable blue economy that is reinforcing of ocean protection in perpetuity. This builds on Niue's s commitment of 40% of its EEZ as a Large Scale MPA - Niue Moana Mahu and 100% of its EEZ and Territorial waters under Marine Spatial Management Plan.. The Trust is now formally established under NZ law and capitalisation of the Trust through donations and the sponsorship of OCCs is available through www.niueoceanwide.com and has secured much interest globally. COP28 offers Niue an opportunity to amplify this work, secure partnerships and contributions and share lessons with other SIDS and interested stakeholders. Niue contributes to UNFCCC and its objective through NOW and OCC's and sees potential for this model to be considered under Article 6.8 of the Paris Agreement to solicit climate finance in a much more SIDS compatible way. The side-event will provide update and lessons learnt for UPSCALING and REPLICATING the model/strategy. Lessons learnt is a critical part of the side event including awareness of alternative non-market mechanisms especially climate financing.</p> <p>Panel: Premier of Niue - Hon Dalton Tagelagi; Pacific Champion for Climate Change on Gender and Inclusion Hon Esa-Sharon Mona Ainu'u; NOW representative; and partner representative.</p>
<p>1.00pm – 1.50pm (9 Dec)</p>	<p>Partnership: Waan Aelon in Majel, NEO, GIZ</p> <p>Contact: Alson Kelen Executive Director Waan Aelon in Majel, INC E: associate@canoesmarshallislands.com</p>	<p>Voyage of Resilience: WAM's Sustainable Maritime Solutions in the Pacific</p> <p>About: The side event at COP 28 by WAM, GIZ, and NEO highlights its contributions to reducing CO2 emissions or maritime transport, empowering communities through canoe-building training, and showcasing indigenous knowledge in climate adaptation while fostering sustainability and resilience in the Pacific region.</p> <p>The side event will spotlight WAM's vital role in reducing CO2 emissions in the RMI's maritime sector. It will emphasize how WAM, along with partners such as NEO and GIZ, empowers communities through traditional and contemporary canoe-building training, showcasing its effectiveness in fostering sustainability and self-reliance. This aligns with COP 28's climate action ambitions by demonstrating low-carbon propulsion technologies (wind-propulsion, electric engines).</p> <p>The event will give voice to Pacific communities, celebrating their unique cultures and traditions, especially</p>

		<p>PMC in August 2023, members agreed in principle on the governance and finance arrangements as well as unanimously endorse for the WRP to be established as the long-term Programme rather than just a 10-year programme to coordinate the wider implementation of people-centred end-to-end multi-hazard early warning systems for all Pacific island countries and territories.</p> <p>The Talanoa Session will focus on Pacific Partnership for Prosperity in a climate changed world, donor coordination to support Pacific-led initiatives for a resilient blue Pacific, and the importance of the initiative for Pacific Island countries and territories in a climate changed world.</p> <p>To address critical gaps, the Weather Ready Pacific Programme was developed to enable Pacific island countries and territories to better anticipate and respond to high impact and extreme weather, hydrological, climate, oceanic and other related environmental events and their associated risks. In particular, empowering Pacific NMHSs to engage credibly with the communities, customers, partners and stakeholders contributes to more informed local and regional decision making, potentially saving lives and livelihoods. Further, enhancing capability builds a stronger platform for the region to manage the impacts of climate change and equipping countries with valuable information to inform adaptation and resilience strategies.</p> <p>Panel: High Level delegates from the Cook Islands (PIFS Chair), representative from Tonga, DG SPREP, DFAT Australia and MFAT New Zealand, and CCR Director, SPREP.</p>
<p>3.00pm – 3.50pm</p> <p>(9 Dec)</p>	<p>Partnership: Government of Palau and Sasakawa Peace Foundation</p> <p>Contact: Masanori Kobayashi Senior Research Fellow Ocean Policy Research Institute The Sasakawa Peace Foundation Tokyo, Japan E: m-kobayashi@spf.or.jp Whatsapp: 81-80-5508-4685</p>	<p>Financing adaptation to climate change for sustainable blue economies in Pacific island countries</p> <p>About: Climate change has been causing seawater temperature warming, intensified rainstorms, frequented drought, increased wind and wave velocity, coastal erosion and coral reef bleaching and entails related phenomena such as ocean acidification. These climatic, marine and biophysical changes adversely affect fisheries, aquaculture, tourism and maritime transport that are important components of economies and livelihood in Pacific island countries. Financing adaptation is one of the key enabling policies. However, due to the limited economy of scale and financial sector in the Pacific island countries, the current financing schemes do not necessarily provide conditions conducive to facilitating the financing of adaptation projects in sustainable blue economy sector in the Pacific island countries. Regional cooperation and international partnership are important to bolster efforts to promote interdisciplinary baseline</p>

		<p>dialogue, addressing the challenges and opportunities of climate adaptation in their respective regions. They will share innovative ideas, personal experiences, and projects aimed at building resilience and mitigating the effects of climate change. As climate change continues to impact communities globally, it is imperative to include the perspectives of youth who will bear the brunt of its consequences.</p> <p>Youth from the Caribbean will represent the Caribbean Climate Justice Leadership Academy (read about the programme: https://islandinnovation.co/programs/climate-justice-academy/) and the session will explore how a similar programme can be built in the Pacific and the opportunities for dialogues between the regions.</p>
<p>11.00am – 11.50am</p>	<p>Secretariat of the Pacific Regional Environment Programme</p> <p>Contact: Fred Patison Climate Finance Readiness Advisor SPREP E: fredp@sprep.org</p>	<p>PCCC - SPREP Green and Resilient Pacific Games Initiative - Catalysing Actions on Climate Change</p> <p>About: Sharing of lessons learned for the Greening of the Pacific Games in Solomon Islands.</p> <p>The Pacific Climate Change Centre through SPREP is collaborating with the Solomon Islands Government to contribute to a green and resilient Honiara city. Whilst the targeted support is focused on the South Pacific Games, the longer-term vision to contribute towards a greener and more resilient Honiara city.</p> <p>The Pacific games is basically a catalyst to drive the interventions that will result in transformative impacts over the long term and contribute to the resilience of the city. The PCCC involvement is part of its key function in driving innovative solutions to climate change. In this particular instance, the broader targeted greening activities will be tied to carbon offsetting for the games and also multiple benefits from reducing heat levels and resilience in general.</p> <p>This is aligned to the PCCC capacity building and innovation functions specifically on the MERL outcome 4.2 and output 4.2.2 to support and implement innovative climate change solutions in PICTs. The intervention for the greening of the Pacific games was first realised for the Pacific games hosted in Apia, Samoa in 2019 and this activity is to replicate some of the carbon off-setting activities whilst contributing to the broader resilience of Honiara city.</p> <p>The side event is to showcase the initiative as an intervention catalysing action and awareness on climate change in the country.</p>

	<p>Pacific Community Engagement Manager and Pacific Advisor (Greenpeace Australia Pacific)</p> <p>E: shiva.gounden@greenpeace.org</p>	<p>climate story and message to the International Court of Justice (ICJ).</p> <p>Panel: Pacific and Global South Youth, First Nations and Indigenous People, (Turtle Island, African nations, Pacific, Aboriginal and Torres Strait Islands), PISFCC, Greenpeace, Pacific Climate Warriors etc.</p>
<p>1.00pm - 1.50pm</p> <p>(10 Dec)</p>	<p>United Nations Capital Development Fund (UNCDF)</p> <p>Contact: Sarah Harris Outreach and Communication Specialist E: sarah.harris.simpson@uncdf.org</p>	<p>Taking stock: innovative finance solutions for adaptation and the community level</p> <p>About: When climate finance is channelled to the local level communities take the leading role in realising results, as illustrated through experiences from Solomon Islands and Tuvalu.</p> <p>The event will discuss the type of partnerships governments and communities can utilise to support the implementation of innovative and collaborative on-ground actions, as well as will explore how to make the link with blue finance and investments in ocean ecosystem conservation, which are central to effective adaptation to the impacts of climate change in SIDS and warrant a greater share of climate finance investment. The event will draw on first-hand experience of LoCAL implementation in Tuvalu, complemented with plans and ambitions in Solomon Islands where a new multi-million dollar adaptation action recently launched in October 2023.</p>
<p>3.00pm – 3.50pm</p> <p>(10 Dec)</p>	<p>The Pacific Community (SPC)</p> <p>Contact: Alisi Tuqa Food Systems Programme Lead E: alisit@spc.int</p>	<p>Pacific Coastal Food System: bridging the climate-food nexus</p> <p>About: Curated Interactive Panel of the climate-food nexus founded on the coastal food systems to transform Pacific food systems, be held on World Soils Day.</p> <p>Two biggest threats facing the Pacific are Climate Change and premature death caused by Non-Communicable Diseases (NCDs). Climate Change is an existential crisis that threatens is recognised as a leading threat to Pacific communities, ecosystems, and species. Premature deaths from NCDs result in loss of productivity and have an impact on the economy, and this is especially important as the region looks to its people for Pacific led solutions to the impact of climate change one and food systems. Part of the solutions lies in sharing about indigenous and coastal food systems. An adverse effect on Pacific food production staple crops and fisheries</p> <p>Threats from climate adversely affect Pacific food sources land and sea - staple crops, putting further stress on Pacific food systems. Climate change will see increased sea temperatures and current flows, bring shifts in the distribution of marine fish stocks for example.</p> <p>Panel: Ambassador Stefan Hafstein; Pacific member country representatives; and Pacific Non-State Actor representative.</p>

MONDAY 11 DECEMBER 2023

COP28 THEME: FINAL NEGOTIATIONS		
TIME (DUBAI)	ORGANISERS AND PARTNERS	EVENT
10.00am – 10.50am (11 Dec)	<p>United Nations University Institute for Environment and Human Security (UNU EHS)</p> <p>Contact: Ms. Mariam Parekhelashvili Project Associate, United Nations University Institute for Environment and Human Security (UNU EHS) E: parekhelashvili@ehs.unu.edu</p>	<p>Gender, Age, and Climate: Inclusive Disaster Risk Financing Solutions for Women, Youth, and Elderly People in Pacific</p> <p>About: This session delves into the intersection of gender, age, disaster risk financing, and insurance, addressing the heightened vulnerability of women, youth, and elderly populations in the face of climate change and sharing the best practice examples from the Pacific.</p> <p>Why do certain groups bear the negative impacts of climate change more than others? What roles do the socially constructed roles, gender and age norms, and traditions, among other factors play in further exacerbating this issue?</p> <p>For instance, the gender assessment conducted by the Pacific Insurance and Climate Adaptation Programme (PICAP) found, that some women were excluded from awareness sessions when both genders were invited, as their husbands would typically participate instead. Additionally, insurance payouts may also lead to gender-based violence, as men may want access to the money given to women. Youth and elderly people may also face specific challenges, such as limited mobility and lack of access to information.</p> <p>Against this background, the proposed session will delve into the intersection of gender, age, disaster risk financing, and insurance and while providing examples of how PICAP addresses these challenges, the event will highlight the significance of developing gender-responsive and inclusive climate risk solutions as a climate adaptation strategy. Additionally, the session will showcase how providing premium support to women and other marginalized groups, including persons with disabilities and individuals enrolled in formal social protection schemes can improve the financial resilience of marginalized groups in the Pacific, helping them withstand the impacts of climate change.</p> <p>Panel: Permanent Secretary, Ministry of Women, Children and Social Protection, Fiji (tbc); Senior Representative from the Ministry of Climate Change, Vanuatu or Ministry of Finance, Tonga (tbc); Mr. Fred Patison, Gender Expert & Climate Change Finance Readiness Adviser, SPREP - Pacific Climate Change Centre; Representative from the Pacific Disability Forum (tbc); Mr. Krishnan Narasimhan, Programme Manager and Lead Insurance and Climate Adaptation Specialist, United Nations Capital Development Fund (UNCDF);</p>

BUILDING 29 - PAVILION VENUE: BZ – MOBILITY – MA03
ROOM: MA03G1 – PAVILION - GF

		Moderator: Ms. Mariam Parekhelashvili, Project Associate, UNU-EHS
11.00am – 11.50am (11 Dec)	Government of Vanuatu Contact: Kemson Tavdey Regional Cooperation Coordinator & Global Climate Diplomacy Coordinator E: ktavdey07@gmail.com	Criminalization of Ecocide in the Rome Statute of the International Criminal Court About: Vanuatu is spearheading international efforts to amend the Rome Statute to include Ecocide as a fifth international crime, which would help end impunity for the perpetrators of the most serious environmental and climate crimes affecting the international community and the Pacific Islands. This event will showcase the Pacific Island’s leadership in global efforts to amend the Rome Statute by introducing "Ecocide" as a fifth international crime. The Rome Statute of the International Criminal Court (ICC) currently addresses four grave international crimes: genocide, war crimes, crimes against humanity, and ethnic cleansing, with a focus on protecting populations, which have limited relevance to Small Island States and the Pacific Islands history. The Rome Statute and the ICC does not have the mandate to hear contentious cases dealing with widespread and severe environmental damage caused by non-conflict activities, the Small Island States and Pacific Islands greatest threat. Our panelists will share stories on why this initiative is of great significance to our region and the world: for reasons of combating impunity for those responsible for the most serious environmental and climate-related crimes; for ensuring that international organs like the ICC serve all regions and all UN member States; for reshaping the international stage with greater presence and engagement; and ensuring that transnational pollution that spreads across other territories including our Ocean is recognized for what it is - an international crime against our people.
3.00pm - 3.50pm (11 Dec)	UNICEF Contact(s): Zoraya El Raiss Cordero, UNICEF Pacific E: zelraiss@unicef.org Anna Smeby, UNICEF Pacific (remote) E: asmeby@unicef.org	An Inclusive Climate Action with and for Children & Youth: the Role of Education and Participation About: Ensuring children take their rightful place at the heart of climate change decisions and ambition. Despite being least responsible for this planetary crisis, children, particularly the most vulnerable, are the most impacted by climate change. Children and youth have transformed the global climate movement, demanding comprehensive and bold climate action from decision-makers to tackle this injustice. Yet much remains to be done to ensure that their right to be heard is upheld, notably in climate decision-making processes. Participation is much more than having a voice, it is about being informed, engaged, and having an influence on decisions and matters that affect their lives. The education sector has a fundamental role to play as it has the potential to build and articulate skills and capacities in children

		<p>and youth, including those with disabilities and other vulnerable populations, that drive transformative action on climate change today and more sustainable societies tomorrow.</p> <p>This side event, hosted by UNICEF, PIFS, Pacific Regional Education Framework (PacREF), Pacific Disability Forum, Pacific Governments and youth, will assess progress made in the Pacific Islands while pushing for further commitments for inclusive climate action with and for children, including their right to be educated and to be heard. The session will build on national, regional and international frameworks and initiatives, including the recently adopted General Comment No.26 on children's rights and the environment with a special focus on climate change, the Pacific Regional Education Framework (PacREF), the Pacific Regional Inclusive Education Framework (PRIEF), and 2050 Strategy for a Blue Pacific Continent.</p> <p>Panel: Hon. Mona AINU'u, Minister of Natural Resources from Niue; Ms. Miimetua Kino, youth negotiator for Cook Islands; Representatives from education and UNICEF (tbc).</p>
<p>4.00pm - 4.50pm</p> <p>(11 Dec)</p>	<p>Pacific Islands Forum Fisheries Agency (FFA)</p> <p>Contact: Marina Abas Fisheries Management Advisor on Climate Change FFA E: marina.abas@ffa.int</p>	<p>The Story of Pacific Island Countries Offshore Fisheries: our identity, cultural heritage and economic sustain threatened by climate change</p> <p>About: The Pacific Island Forum Fisheries Agency will feature the tale of offshore fisheries, a story of conservation and sustainability, cultural heritage and economic dependence, threatened by climate change.</p> <p>The FFA will feature the tale of offshore fisheries: a story of conservation and sustainability, cultural heritage and economic dependence. This side event will advocate for and raise awareness on the vulnerability of the Pacific Island fisheries and dependant social and economic benefits in the face of climate change. Topics such as adaptation, loss and damage, gender and social inclusion and cooperation for resilience will be featured. The Pacific Island offshore fisheries sustain around 70% of world tuna consumption, being highly important for food security. This is the largest tuna fishery in the world, and the only one having all their stocks sustainably managed. These fisheries represent not only the economic and social dependence of many of these Island countries, but it is also a matter of sovereignty rights and regional cooperation. However, recent modelling shows that continued GHG emissions are expected to cause substantial changes in the abundance and distributions of the main target species of the fisheries within the Pacific Ocean Basin, with predicted shifts from the Western and Central Pacific Ocean toward the Eastern Pacific Ocean, and from areas under national jurisdiction to the high seas. Given the all-encompassing and complex nature of climate change, our collective effort is required to prepare and respond to those threats by taking a proactive approach to managing the potential risks and increasing the resilience of offshore fisheries and associated benefits for the people who depend on them.</p>
