SUBJECT: Introduction of the PacWaste Plus Project

Dear SPREP Focal Points,

I am delighted to inform you that SPREP and the European Union's Delegation for the Pacific have signed the PAGoDA to enable the PacWaste Plus project to commence in the region. PacWaste Plus is a €16.5million project funded by the EU 11th EDF. The project seeks to build on outcomes from PacWaste and significantly expands the scope of works from hazardous waste and atoll waste management into solid waste management and wastewater. The project will run until June 2023.

The progress made in establishing the PacWaste Plus Team, a brief summary of the project design, an outline of the work plan for next 6 months, along with a copy of the PAGoDA have been attached for your information.

SPREP looks forward to working with you all on this exciting project to deliver quality outcomes in waste management in the Pacific.

Yours faithfully,

Roger Cornforth
Acting Director General
