

CIRCULAR

FILE: AP 5/3/2 **TO:** SPREP National Focal Points
DATE: 19 August 2019
CIRCULAR: 19/58
SUBJECT: **Regional Action for Coral Reef Conservation**

Dear Focal Points,

As part of the Pacific Year of the Coral Reef, SPREP is committed to developing a Regional Action Plan for Coral Reef Conservation. SPREP has contracted BMT Consulting to work with Members, to develop a draft Action Plan.

The first phase of planning development will consist of a wide consultation of stakeholders in the region. This consultation will begin by contacting SPREP country and territory focal points. BMT teams will soon get in touch with you to discuss your inputs.

I thank you in advance for directing BMT to relevant contacts in your respective countries and territories so that we can collect accurate information as a basis for preparing the Action Plan, which is aimed at improving conservation of our coral reef ecosystems.

For further information or questions, please contact Franck Connan franckc.ext@sprep.org and Peter Davies peterd@sprep.org at SPREP and Beth Toki, Beth.Toki@bmtglobal.com and David Rissik, David.Rissik@bmtglobal.com at BMT office.

Yours sincerely,

Stuart Chape
Acting Director General
