CIRCULAR: 20/18

TO: Climate Change Focal Points
CC: SPREP National Focal Points

SUBJECT: Postponement of the Training - "Climate Change Adaptation and Disaster Risk Reduction (Adaptation options of land use management, physical structures and human mobility)", 20 April – 1 May 2020, Pacific Climate Change Centre, SPREP, Apia, Samoa.

Dear Focal Points,

Regretfully we have had to postpone the second regional training on "Climate Change Adaptation and Disaster Risk Reduction - adaptation options of land use management and physical structures and human mobility" prepared through the Project for Capacity Building on Climate Resilience in the Pacific (CBCRP-PCCC) originally scheduled to be held on 20 April – 1 May 2020 at the Pacific Climate Change Centre (PCCC) in Apia, Samoa, for which call for nominations was made through SPREP Circular 20/13 on 28 February.

The project office has been monitoring the travel restrictions against coronavirus outbreak (COVID-19) and made the above decision considering the increasing difficulties to implement the training effectively.

The new schedule of this training shall be decided depending on the latest situations of the regulations issued by governments in the region.

I would like to extend my sincere apologies for any inconvenience this postponement may cause and look forward to announcing the new schedule of this training at a later date.

Yours sincerely,

Kosi Latu
Director General
