1. Background

1.1. The Secretariat of the Pacific Regional Environment Programme (SPREP) is an intergovernmental organisation charged with promoting cooperation among Pacific islands countries and territories to protect and improve their environment and ensure sustainable development.

1.2. SPREP approaches the environmental challenges faced by the Pacific guided by four simple Values. These values guide all aspects of our work:
   - We value the Environment
   - We value our People
   - We value high quality and targeted Service Delivery
   - We value Integrity

1.3. For more information, see: www.sprep.org.

1.4. The Pacific Regional Waste and Pollution Management Strategy 2016-2025 (Cleaner Pacific 2025) highlighted the need to promote best practices through regional exchanges and national cooperation to achieve the strategic goals towards a cleaner Pacific environment. In order to initiate regional and national cooperation, a Clean Pacific Roundtable (CPRT) was identified as a major activity to be organised to enable the monitoring and progress reporting against the Cleaner Pacific 2025, facilitate networking and dialogue, explore additional resources and investment opportunities, and improve donor coordination.

The 2024 CPRT will provide a vehicle to disseminate outcomes, promote regional collaboration and resource complementarity, and expand networking opportunities to assist Pacific Island countries and territories in the delivery of safe and sustainable waste management practices and to prevent pollution-related issues that impact the health of the ocean and communities within the region.
