CLARIFICATION QUESTIONS

RFT: 2025/019
File: AP_3/42
Date: 21 April 2025
To: Interested Service Providers
Contact: Maraea S. Pogi (maraeap@sprep.org)

Subject: Request for tenders: Loss and Damage Consultant for the Development of a National Loss and Damage Evidence Base for Tonga under the Loss and Damage Capacity and Capability Project.

Question 1:

Are there any conflict of interests or concerns if an applicant has applied for RFT 2025/010 (Cook Islands Loss and Damage Evidence Base) or is this welcomed, since this can help with the coordination and production of coherent national outputs scalable to the regional LDCC project?

Response:

This is welcomed

Question 2:

For 3.1.2 Analysis of Non-Economic Loss and Damage Information, could you please clarify whether organising by thematic areas should follow an existing international framework, or if there is flexibility to apply context-specific approaches?

Response:

No current frameworks there is flexibility and also a role to (alongside other evidence base consultants) configure some frameworks around these complex areas.

Question 3:

What level of technical sophistication is expected in visual templates? Would simple representations be sufficient, or is there an expectation for more technical templates like GIS project packages?

Response:

Visual templates do not have to be too complicated; GIS is not expected.
