Subject: Request for tenders (RFT): Development of a Master Plan for the Port Vila Botanical Gardens, Tagabe Water Catchment Area, Vanuatu

Question 1:

Is topographical survey base data available for the site which also identifies the major trees on site?

Response:

The total area that we would like to this work to be done is about 4ha. There is no topographic survey

Question 2:

Will topographical survey information be available prior to the successful consultant engagement so site analysis work can commence immediately?

Response:

No

Question 3:

If topographical survey is not to be provided will the masterplan be based on aerial imagery?

Response:

Yes

Question 4:

Is LiDAR or similar information available for the site?

Response:

No

Question 5:

Has flood modelling already been done for the site and are flood levels available in spatial data form so it can be added to the masterplan and used as a design tool/ to help drive brief outcomes?

Response:

No

Question 6:

Is the program flexible?

Response:

Yes

Question 7:

Please can you advise the fee budget upper limit?

Response:

This is a competitive process, all bid will be assessed based on merit and demonstrate best value for money.

Question 8:

Do you have visitor data available suitable to use for the ecotourism economics scope in the brief?

Response:

This can be sourced from National Tourism office or Bureau of Statistics - Vanuatu
