Subject: Request for tenders: Project Coordinator for the review of the National Implementation Plan update for the Stockholm Convention in Persistent Organic Pollutants

1. Background

- 1.1. The Secretariat of the Pacific Regional Environment Programme (SPREP) is an intergovernmental organization charged with promoting cooperation among Pacific islands countries and territories to protect and improve their environment and ensure sustainable development.
- 1.2. The Stockholm Convention on Persistent Organic Pollutants (POPs) is an internationally binding agreement that commits governments around the world to take the necessary actions to reduce, and where feasible, eliminate the production and environmental releases of 28 listed POPs. The Convention entered into force on 17th May 2004 with Fiji, Tonga, Tuvalu, Vanuatu, Cook Islands, Nauru, and Samoa becoming a Party through ratification of the Convention on December 6th, 2004. As Parties to the convention Pacific Island Countries are obligated to comply with the Convention's requirement by establishing an inventory and formulating a National Implementation Plan (NIP) for the proper management of the scheduled POPs and wastes in order to eventually eliminate their releases within the country and abroad. Additionally, convention Article 7(1)(c) requires that an existing NIP must be updated to show how a country intends to meet its obligations with respect to the amendments to Annexes A, B and C every time new POPs are added
- 1.3. SPREP anticipates signing the project cooperation agreement with UNEP in September 2019, with commencement of the work immediately after. Contract signing with the consultant is therefore anticipated to be in September – October 2019, but delays may be possible. Should the PCA not be signed, this tender will be cancelled.
- 1.4. For more information, see: www.sprep.org.
