**Subject:**

**PWP-184-CON: Request for Tenders: Procure, Install, And Commission A Healthcare Incinerator at The London Hospital in Kiritimati Island, Kiribati**

---

1) Can 20' Sea Containers be off loaded from the ship and transported to the site where the incinerator is to be sited? (The incinerator weighs 2.6 tonne.)

***There is a port in Kiritimati located in Ronton near the site where the incinerator will be installed. The port is equipped with a crane. There are also sidelifters on the island that can transport the incinerator of 2 tonnes from port to site.***

2) Can we offer an option of the unit, being fully Containerised for operation, housed in a modified, customer owned sea container? (front and rear doors which eliminates the need for a shed)

**Yes.**

3) How do we find and contact an approved SPREP builder who can supply and install a suitable shed with the housed incinerator inside. We will also need builder to find provide costs for power (electrician), water and fuel (plumber) to make the connections to the incinerator (control panel, burners & water spray)

***There are no SPREP approved builders. Finding and sourcing local labour is the responsibility of the tenderer. However, tenderers are encouraged to contact Kiribati Ministry of Line and Phoenix Development to obtain a list of licensed contractors and builders to engage, E-mail: [enquire@mlpid.gov.ki](mailto:enquire@mlpid.gov.ki) or visit website <https://www.mlpid.gov.ki/index.php#>.***

4) What Taxes do we need to add on as customs Duties in bringing our product into a country is always an exclusion, as we don't know what those charges will be?

***Shipments that are consigned to the Kiribati Government such as the Ministry of Health are always exempted from custom duties. An exemption letter can be provided from the Ministry of Health at Kiritimati with attached bill of lading and commercial invoice (provided from shipper/supplier. The tenderer who gets the contract will need to obtain this supporting letter, in this case the Ministry of Health at Kiritimati - Dr. Terairea, to facilitate the release of the incinerator and parts.***

5) What type of accommodation is available on the island.

***There are hotels close to the construction site such as Sunset Horizon Fishing Lodge, Ikari House, Captain Cook hotel, etc. More information on accommodation in Kiritimati can be found on the Tourism Authority of Kiribati website.***
