

This initiative is supported by PacWastePlus-a 72-month project funded by the European Union (EU) and implemented by the Secretariat of the Pacific Regional Environment Programme (SPREP) to sustainably and cost effectively improve regional management of

Waste Audit Report

NAURU

December 2020

Supported by the Australian Government through the Pacific Ocean Litter Project

The information and data gathered from these waste audits will be used by countries in the Pacific to support the development and monitoring of waste and resource recovery projects and recommend the infrastructure and policy interventions required. The regional dataset will also be used to identify and evaluate potential regional projects that would improve waste management in the region.

Weight (Tonne)	Count (Units)	Location	Further Details	Photos Captured During the Audit
0.2 ⁴⁵	1 (container – not full)	Government Warehouse	Storage here ceased in 2016.	None available
67.5 ⁴⁶	5 (shipping containers)	Waste Facility	Storage here ceased in 2016.	None available
225.0 ⁴⁶	15 (shipping containers)	Regional processing centre grounds (volumes provided by NRC).	There are 15 containers full of asbestos at the regional processing centre) with an unknown quantity stored on the ground.	

⁴⁵ Asbestos sheeting – 20 foot shipping container at 33m³ per container, 9.2kg/m³.

⁴⁶ 15 tonne per full container located at waste facility and regional processing centre. Weights based on the Survey of the Regional Distribution and Status of Asbestos Contaminated Construction Material and Best Practice Options for its Management in Pacific Island Countries (2015), section 10.4.2.
