- 4.5. The tenderer/bidder might be requested to provide additional information relating to their submitted proposal, if the Tender Evaluation Committee requests further information for the

purposes of tender evaluation. SPREP may shortlist one or more Tenderers and seek further information from them.

- 4.6. The submitted tender proposal must be for the entirety of the Terms of Reference and not divided into portions which a potential tenderer/bidder can provide services for.
- 4.7 The Proposal must remain valid for 90 days from date of submission.
- 4.8 Tenderers must insist on an acknowledgement of receipt of tender.

## 5. Tender Clarification

- 5.1. a. Any clarification questions from applicants must be submitted by email to [procurement@sprep.org](mailto:procurement@sprep.org) before 23 January 2024. A summary of all questions received complete with an associated response posted on the SPREP website [www.sprep.org/tender](http://www.sprep.org/tender) by 25 January 2024.
- b. The only point of contact for all matters relating to the RFT and the RFT process is the SPREP Procurement Officer.
- c. SPREP will determine what, if any, response should be given to a Tenderer question. SPREP will circulate Tenderer questions and SPREP's response to those questions to all other Tenderers using the SPREP Tenders page (<https://www.sprep.org/tenders>) without disclosing the source of the questions or revealing any confidential information of a Tenderer.
- d. Tenderers should identify in their question what, if any, information in the question the Tenderer considers is confidential.
- e. If a Tenderer believes they have found a discrepancy, error, ambiguity, inconsistency or omission in this RFT or any other information given or made available by SPREP, the Tenderer should promptly notify the Procurement Officer setting out the error in sufficient detail so that SPREP may take the corrective action, if any, it considers appropriate.

## 6. Evaluation criteria

- 6.1. SPREP will select a preferred consultant on the basis of SPREP's evaluation of the extent to which the documentation demonstrates that the tenderer offers the best value for money, and that the tender satisfies the following criteria:
- 6.2. A proposal will be rejected if it fails to achieve 70% or more in the technical criteria and its accompanying financial proposal shall not be evaluated.

### I. Technical Score – 70%

Criteria	Detail	Weighting
Experience	Demonstrate experience in the development of national waste management strategies/systems.	15%
	Demonstrated experience in national and local monitoring and evaluation processes that include strengthened reporting, monitoring, and evaluation mechanisms	5%

	Demonstrated experience in Small Island Developing States (SIDS) presenting complex topics in simplified way, experience in the Pacific preferable.	10%
<b>Methodology</b>	Proposed project methodology noting schedule, activities, concurrent or sequential development, engagement with country representatives, etc.  Preference given to consultants to provide details of their preferred strategy structure and provide specific information on how they will deliver and manage the requested works.	35%
	Risk Plan (with mitigation measures) that will ensure the successful delivery of the project.	5%

## II. Financial Score –30%

The following formula shall be used to calculate the financial score for ONLY the proposals which score 70% or more in the technical criteria:

$$\text{Financial Score} = a \times \frac{b}{c}$$

Where:

a = maximum number of points allocated for the Financial Score

b = Lowest bid amount

c = Total bidding amount of the proposal

### 7. Variation or Termination of the Request for Tender

- 7.1 a. SPREP may amend, suspend or terminate the RFT process at any time.
- b. In the event that SPREP amends the RFT or the conditions of tender, it will inform potential Tenderers using the SPREP Tenders page (<https://www.sprep.org/tenders>).
- c. Tenderers are responsible to regularly check the SPREP website Tenders page for any updates and downloading the relevant RFT documentation and addendum for the RFT if it is interested in providing a Tender Response.
- d. If SPREP determines that none of the Tenders submitted represents value for money, that it is otherwise in the public interest or SPREP's interest to do so, SPREP may terminate this RFT process at any time. In such cases SPREP will cancel the tender, issue a cancellation notice and inform unsuccessful bidders accordingly.

### 8. Deadline

- 8.1. **The due date for submission of the tender is: 02 February 2024, midnight (Apia, Samoa local time).**
- 8.2. Late submissions will be returned unopened to the sender.
- 8.3. Please send all tenders clearly marked 'PWP-267-CON: **Review and update the Niue integrated solid and hazardous waste management strategy 2015**

SPREP reserves the right to reject any or all tenders and the lowest or any tender will not necessarily be accepted.

SPREP reserves the right to enter into negotiation with respect to one or more proposals prior to the award of a contract, split an award/awards and to consider localised award/awards between any proposers in any combination, as it may deem appropriate without prior written acceptance of the proposers.

**A binding contract is in effect, once signed by both SPREP and the successful tenderer. Any contractual discussion/work carried out/goods supplied prior to a contract being signed does not constitute a binding contract.**

**For any complaints regarding the Secretariat's tenders please refer to the Complaints section on the SPREP website <http://www.sprep.org/accountability/complaints>**

## Annex A: Terms of Reference Review and Update the Niue Integrated Solid and Hazardous Waste Management Strategy 2015

### 1. BACKGROUND

The Secretariat of the Pacific Regional Environment Programme (SPREP) is working with the European Union's Delegation to the Pacific, and 14 Pacific Island Countries and Timor-Leste to undertake the PacWastePlus Programme (the Project) which seeks to improve and enhance waste management activities and the capacity of governments, industry, and communities to manage waste to reduce the impact on human health and the environment.

PacWastePlus seeks to generate improved economic, social, health and environmental benefits for Pacific Island Countries arising from stronger regional economic integration and the sustainable management of natural resources and the environment. The programme activities will be designed to assist Countries to ensure the safe and sustainable management of waste with due regard for the conservation of biodiversity, reduction of marine litter, health and well-being of Pacific Island communities, and climate change mitigation and adaptation requirements.

Activities for PacWaste Plus will focus on targeted priority waste streams which are: hazardous wastes (specifically **asbestos**, **e-waste** and **healthcare waste**), solid wastes (specifically **recyclables**, **organic waste**, **disaster waste** and **bulky waste**), and related aspects of **wastewater** (water impacted by solid waste).

### 2. INTRODUCTION TO PROJECT

The Niue Integrated Waste Management Strategy 2010 – 2015 (NIWMS 2010-2015) provides strategic direction for the management of solid, liquid, hazardous, healthcare, and quarantine wastes in Niue. The existing strategy can be found here: <https://library.sprep.org/content/niue-island-national-integrated-waste-management-strategy-2010-2015>

The Department of Environment (DOE) in Niue has requested PacWastePlus support the review and update the existing NIWMS 2010-2015 to establish and reconfirm the strategic vision and direction for waste management in Niue, including the management of emerging waste streams such as mercury and end-of-life batteries and equipment from renewable energy projects.

The intent of the upgraded Integrated Solid and Hazardous Waste Management Strategy is to ensure a strategic and holistic approach to waste management in Niue. The updated Strategy will reflect and build-on the NIWMS 2010-2015 and other strategic infrastructure and waste management documents, including:

- Niue National Strategic Plan 2016 – 2026 (NNSP) – setting out a vision plan by the Government of Niue for “a prosperous Niue”. The mission to support the vision is to responsibly and sustainably meet social and economic needs and development aspirations while preserving Tāoga Niue culture and heritage values and protecting the environment. The NNSP introduces seven national development pillars.
- The currently negotiated Treaty on Plastic Pollution – draft text on this agreement seeks for each Party to develop and implement a National Action Plan to fulfil its obligations and achieve its objective. The National Action Plan shall include relevant elements related to: primary plastic polymers, chemicals and polymers of concern, problematic and avoidable plastic products, product design and performance, reduce, reuse, refill and repair of plastics and plastic products, use of recycled plastic contents, extended producer responsibility, emissions and releases of plastic through its life cycle, waste management, fishing gear, and existing plastic pollution including in the marine environment.
- Cleaner Pacific 2025 – long-term strategy for integrated sustainable waste management and pollution prevention and control in the Pacific region. It provides a strategic management

framework to address waste, chemicals and pollutants to reduce associated threats to sustainable development of the region.

- The 17 United Nations Development Programme Sustainable Development Goals – the global blueprint to achieve a better and sustainable future
- Meeting obligations under any conventions or Multilateral Environmental Agreements (MEAs) that Niue is, or seeks to be, party to

### 3. EXPECTED OUTCOMES

The PacWastePlus Programme seeks to engage a consultant to deliver the following:

- Review the existing NIWMS 2010-2015, draft Treaty on Plastic Pollution, and existing other documents, host consultation with the DOE and other relevant agencies, and update the Niue Integrated Solid and Hazardous Waste Management Strategy that appropriately reflects strong strategic intent for waste management
- Develop a Cabinet Paper summarising the updated Niue Integrated Solid and Hazardous Waste Management Strategy for the DOE to present to the Niue Cabinet seeking adoption
- Develop a 5-year action plan with inclusion of necessary legislative improvement to ensure the ability to implement the strategic intent of the updated Niue Integrated Solid and Hazardous Waste Management Strategy.

### 4. SCOPE OF WORK

The expected delivery of this consultancy will be developed in stages and is described in the following table.
