Context:

The Pacific Regional Invasive Species Management Support Service (PRISMSS) was established in 2019 to support and scale up on-the-ground invasive species management in the Pacific.

PRISMSS is a partnership between SPREP, Wellington University, SPC, Island Conservation, Birdlife International, Manaaki Whenua Landcare Research and New Zealand's Department of Conservation. The PRISMSS Partners are responsible for their respective regional programmes. The six regional programmes are:

PRISMSS REGIONAL PROGRAMMES

Protect Our Islands

"National and inter-island biosecurity and EDRR"

Predator Free Pacific

"Removal of invasive mammalian predators from Islands"

War On Weeds

"Management of high priority weeds"

Natural Enemies - Natural Solutions

"Biological control of widespread weeds"

Resilient Ecosystems - Resilient Communities

"Priority area ecological restoration"

Protect Our Marine Areas

"Preventing marine invasive species from spreading to priority marine areas"

PRISMSS, part of the Secretariat of the Pacific Regional Environment Programme (SPREP), works with experienced partners and in-country experts to deliver activities aimed at restoring island resilience by managing invasive species. Building on ongoing work funded by New Zealand Ministry of Foreign Affairs and Trade (NZMFAT) through the Managing the Impacts of Climate Change Adaptation in the Pacific (MISCCAP) project (concluding in October 2024), PRISMSS is aiming to continue increasing its climate impact. MFAT is providing new climate finance funding of NZD 20.6 million for the new activity, running from July 2023 – June 2026. This is being provided under a Grant Funding Arrangement (GFA) between MFAT and SPREP, which was agreed in June 2023. The work contributes to the goals and outcomes of Tuia te Waka a Kiwa – the Aotearoa New Zealand International Climate Finance Strategy.
